## **A Better Future For All Just In Case:**

**Radiance** Catherynne M. Valente, 2015-10-20 *Radiance* is a decopunk pulp SF alt history space opera mystery set in a Hollywood and solar system very different from our own from Catherynne M Valente the phenomenal talent behind the New York Times bestselling *The Girl Who Circumnavigated Fairyland in a Ship of Her Own Making* Severin Unck's father is a famous director of Gothic romances in an alternate 1986 in which talking movies are still a daring innovation due to the patent hoarding Edison family. Rebellious against her father's films of passion intrigue and spirits from beyond Severin starts making documentaries traveling through space and investigating the levitator cults of Neptune and the lawless saloons of Mars. For this is not our solar system but one drawn from classic science fiction in which all the planets are inhabited and we travel through space on beautiful rockets. Severin is a realist in a fantastic universe. But her latest film which investigates the disappearance of a diving colony on a watery Venus populated by island-sized alien creatures will be her last. Though her crew limps home to earth and her story is preserved by the colony's last survivor Severin will never return. Told using techniques from reality TV classic film gossip magazines and meta-fictional narrative *Radiance* is a solar system spanning story of love exploration family loss quantum physics and silent film. At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied.

**The adventure** Sébastien Bachelet, 2025-07-08 This ethnographic exploration of irregular migration from Western and Central Africa in Morocco deconstructs dehumanising narratives of a migration crisis and a sub-Saharan problem in politics of migration. The book provides an original focus on how migrants understood and experienced their entrapped mobility. The emic notion of the adventure at the heart of this study sheds light on a transformative epic quest to carve out a better life and future. The book traces how young men from Western and Central Africa sought to assert themselves as agents of their own destinies despite uncertain illegalising processes. In steering away from aesthetics of despair and fearmongering narratives the book brings new insights into inter-disciplinary debates e.g. illegality uncertainty immobility violence suffering transit etc. Such focus is essential to draw out the complexity and existential depth of irregular migrants' lives, journeys and stories. *The World's Work*, 1919 A history of our time
