A Case For Catholicism:

The Case for Catholicism Trent Horn, 2017-11-29 This is the most up to date comprehensive and thorough defense of the Catholic Church against Protestant objections in print This book is especially relevant as the 500th anniversary of the Protestant Reformation draws near and discussion of the arguments made against the Church during that time in history receive renewed interest The Case for Catholicism answers arguments put forward by early Reformers like Luther and Calvin as well as contemporary defenders of Protestantism like Norm Geisler and R C Sproul It provides a meticulous defense of the biblical and historical nature of Catholic doctrines from Scripture and church history Finally in both answering Protestant objections to Catholicism and in providing evidence for the Faith The Case for Catholicism cites modern Protestant scholars who question Reformation assumptions and show how evidence from Scripture and church history support aspects of Catholic theology This book is divided into four sections with each answering a key question Christians have asked about the nature of their faith Those key questions are What is my authority What is the Church How am I saved Who belongs to the body of Christ The Case for Catholicism will become a reliable resource for any Catholic who desires a well researched readable and persuasive answer to Protestant arguments made against the Catholic faith

A Case of Witchcraft Robert Rapley, 1998 This book offers the first comprehensive treatment of the historian and public moralist E A Freeman since the publication of W R W Stephens *Life and Letters of Edward A Freeman 1895* While Freeman is often viewed by modern scholars as a panegyrist to English progress and a proponent of Aryan racial theory this study suggests that his world view was more complicated than it appears Revisiting Freeman s most important historical works this book positions Thomas Arnold as a significant influence on Freeman s view of world historical development Conceptualising the past as cyclical rather than unilinear and defining race in terms of culture rather than biology Freeman s narratives were pervaded by anxieties about recapitulation Ultimately this study shows that Freeman s scheme of universal history was based on the idea of conflict between Euro Christendom and the Judeo Islamic Orient and this shaped his engagement with contemporary issues
