vocabulary and higher syntactic units including legal jargon Conceptual analysis is to be pursued whenever an identical term in the target language does not exist or its full equivalent is in doubt Legal translation should be based primarily on comparative legal linguistic and genre analysis in order to make the transfer of legal information as precise accurate and comprehensible as possible The primary objective of legal translation is for the target recipient to be provided as explicit extensive and precise legal information in the target language as is contained in the source text complemented by the translator with facts rendering the original information fully comprehensible in the different legal environment and culture A dictionary which will help its users to produce legal texts in the target language should be founded upon a profound comparative legal and linguistic analysis that will determine equivalents at the levels of vocabulary syntax and genre b select the appropriate lexicographic material to be included in the dictionary and c create entries in a user friendly manner
