D Day Intelligence Deception:

OPERATION FORTITUDE: The Closed Loop D-Day Deception Plan Major Ernest S. Tavares Jr. USAF, 2015-11-06

Operation FORTITUDE the D Day deception plan was a near perfect plan used by the Allies during World War II to deceive the Germans as to the time and place of the Normandy invasion This short research paper studies the methods and techniques used by the Allies specifically the British Security Services in the near flawless execution of the deception plan This paper also proposes that the plan was so well executed because it was a closed loop plan That is to say that the British controlled not only the information going forward to the Germans but they were also in the enviable position of being able to determine the exact extent of the Germans belief in the veracity of the information that they were given This was due to two factors the British had complete control of all German agents in England by the second year of the war and the British were able to read encrypted German message traffic often as fast as the intended recipients In the final analysis the Germans were completely outmaneuvered in the intelligence department during the Second World War Through sloppy work on their part and the amazingly well manufactured deception story put forth by the Allies the Germans were essentially blind while trying to defend the Normandy beaches The research for this paper was conducted solely using open source material Many of these were secondary sources though others were recently declassified operational documents from the British and United States historical records

D-Day Jock Haswell, 1980

Fortitude Roger Hesketh, 2002-05-30 This declassified WWII report offers a detailed look at the Allied campaign to

deceive the Nazis about the immanent attack on Normandy As the conflict in Europe wore on the Germans braced for an amphibious assault on France The only question was where and when the Allies would strike This required an intricate misinformation campaign to throw the Nazis off the scent The objective of Operation Fortitude was to persuade the enemy that the long awaited landings would take place in the Pas de Calais and that any attack in Normandy would be nothing more than a diversionary feint that could be safely ignored Hundreds of bogus agent reports were manufactured an entire US Army Group was invented false radio signals transmitted and inflatable tanks dummy bombers built of balsa wood and canvas landing craft were positioned where they could be photographed by the Luftwaffe The elaborate ruse suggested an imminent amphibious assault from Dover across the shortest stretch of the English Channel Operation Fortitude was an extraordinary success In this volume the classified official history of the entire operation written by Roger Hesketh as head of the team of D Day deception specialists has been declassified and released
