Dictatorship Over Needs Ferenc Fehér, Agnes Heller, György Márkus, 1983-01-01 **Dictatorship Over Needs** Ferenc Fehér, Agnes Heller, György Márkus, 1983-01 **Dictatorship over needs : an analysis of soviet societies** Ferenc Fehér, Ágnes Heller, György Márkus, 1984 **In Marx's Shadow** Costica Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and nonofficial discourses and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989 **From Neo-Marxism to Democratic Theory** Andrew Arato, 2016-09-16 The essays in this volume trace an intellectual odyssey a search for a genuinely critical theory The book begins with the question of why the Frankfurt School as well as other neo Marxist and post Marxist analysts both in the West and in dissident circles in the East failed to produce a critical theory of Soviet socialism or to establish a dynamic relationship with contemporary social movements As the political struggle in Eastern Europe intensified the author of this book disengaged from his own efforts to reconstruct a critical Marxism Instead he attempts a reconstruction of democratic theory based on civil society rather than class categories and with a critical relevance not only to the transition from state socialism but more generally to the universal goal of emancipation *Engaging Agnes Heller* Katie Terezakis, 2009-01-01 This collection of essays examines the life and thought of Agnes Heller who rose to international acclaim as a Marxist dissident in Eastern Europe then went on to develop one of the most comprehensive oeuvres in contemporary philosophy putting forward a distinctive ethical theory and analyses of a vast range of topics covering most every philosophical area Here philosophers sociologists journalists and political scientists contextualize compare and assess different elements of Heller's work the collection as a whole highlights relevant shifts within that work as well as its intrinsic consistency Essays in the collection address the relationship between philosophy political practice and everyday life Heller's theory of modernity and her ethical theory her recent scholarship on comedy and the Biblical book of Genesis her theories of radical needs and radical politics

her aesthetic theory and questions about her relationship to feminist theory The collection includes Heller s reflections on the collected essays as well as an early essay on her mentor Lukacs that exposes her own steadfast engagement with certain practical and philosophical issues throughout her life s work

Dictatorship Over Needs Ferenc Fehér,1983 *Towards a Radical Democracy (Routledge Revivals)* Douglas Brown,2013-12-19 Originally published in 1988 this is the first systematic account of the writings of Hungarian dissidents and former students of George Lukacs collectively known as the Budapest School Dr Brown demonstrates the importance of their work in contributing to a logically consistent yet realistic theory of socialist mixed economies and genuine radical democracies The Budapest School s model of radical democracy represents a critique of both industrial capitalism and existing socialist systems with immediate political as well as philosophical importance Dr Brown is particularly concerned to draw out its significance for the practical realities of political economy and the logical implications for desirable reform of Western mixed economies

Critical Theories and the Budapest School John Rundell,Jonathan Pickle,2017-12-06 Critical Theories and the Budapest School brings together new perspectives on the Budapest School in the context of contemporary developments in critical theory Engaging with the work of the prominent group of figures associated with Georg Lukacs this book sheds new light on the unique and nuanced critiques of modernity offered by this school informed as its members insights have been by first hand experiences of Nazism Soviet type societies and the liberal democratic West With studies of topics central to contemporary critical theory such as the political and historical consciousness of modernity the importance of bio politics the complexity of the human condition and the relevance of comedy and friendship to developing critical perspectives the authors draw on the works of Agnes Heller Maria M rkus Gy rgy M rkus and Ferenc Fehér demonstrating their enduring relevance to critical theory today and the ways in which these philosophers can inform new perspectives on culture and politics An innovative reassessment of the Budapest School and the importance of its legacy this book opens a much needed and neglected dialogue with other schools and traditions of critical theorizing that will be of interest to scholars of sociology philosophy and social theory

Agnes Heller John Grumley,2004-12-20 Agnes Heller is one of the leading thinkers to come out of the tradition of critical theory Her awesome intellectual range and output includes ethics philosophical anthropology political philosophy and a theory of modernity and its culture Hungarian by birth she was one of the best known dissident Marxists in central Europe in the 1960 s and 1970 s Since her forced immigration she has held visiting lectureships all over the world and has been the Hannah Arendt Professor of Philosophy at the New School in New York for the last twenty years This introduction to her thought is ideal for all students of philosophy political theory and sociology Grumley explores Heller s early work elaborating her relation to Lukacs and the evolution of her own version of Marxism He examines the subsequent break with Marxism and the initial development of an alternative radical philosophy Finally he explains and assesses her mature reflective post modernism a perspective that is both sceptical and utopian that upholds a critical humanist perspective just as it critiques contemporary
