Webster's All-In-One Dictionary & Thesaurus, Second Edition Merriam-Webster, 2013-03 Combined alphabetically offers over sixty thousand dictionary entries and more than one hundred thousand thesaurus entries **Basic Dictionary Of Synonyms And Antonyms** Laurence Urdang, 1982 A dictionary as well as a thesaurus and a much simplified one at that It gives you all the basic words used in the English language their chief meanings all important synonyms and antonyms where needed To make the meaning of each entry clear it uses the words in a sentence and where the secondary meanings are considerably different from the first uses it in two or more sentences Much larger dictionaries and synonym books are available but they often confuse the reader by providing long lists of complicated often rare words and other technicalities This book is much more useful and used with good judgment should yield excellent results **The Oxford Thesaurus** Laurence Urdang, 1991 Includes over 275 000 synonyms with example sentences and guides to precise synonym choice

Webster's Dictionary and Thesaurus, 2004 The dictionary is presented in a concise form and contains over 150 000 definitions The thesaurus of over 250 000 synonyms and antonyms is arranged in alphabetical order for easy reference Front flap **The Oxford Dictionary and Thesaurus** Frank R. Abate, 1996 We all know the feeling trying to find a synonym for a word we turn to a thesaurus and find a group of words that might be right but the thesaurus doesn't provide us with definitions So we then turn to the dictionary to check the meanings for the entire list of new synonyms and after much flipping back and forth between thesaurus and dictionary finally decide upon an alternative Neither book by itself provides the full range of word choices But now The Oxford Dictionary and Thesaurus offers a thoroughly integrated blend of entries from the dictionary and the thesaurus This unified approach treating meanings and related words within the same entry makes it easy to find in one place an abundance of information about words and provides a far more thorough analysis of the variety and nuances of our language than is possible in a dictionary or thesaurus alone Oxford's American dictionary staff along with an international team of lexicographers have drawn on the unparalleled lexical resources of Oxford University Press the world's most respected authority on English language and dictionaries to make The Oxford Dictionary and Thesaurus the most wide ranging resource available It includes More than 190 000 definitions and 300 000 synonyms thoroughly integrated for ease of use Full coverage of English from around the globe braced off merrythought billabong Charles's Wain Hundreds of new words such as shareware carbon tax grunge and ram raid Valuable appendices including Selected Proverbs more than 1 000 new and old favorites such as Handsome is as handsome does A trouble shared is a trouble halved and There's many a good tune played on an old fiddle Terms for Animal Groups a gang of elk a troop of kangaroos a parliament of rooks Weights and Measures Chemical Elements Musical Notation Presidents of the U S Countries of the World Helpful points on English usage and much more No American dictionary or thesaurus offers as much as The Oxford Dictionary and Thesaurus It not only combines an up to date and thoroughly reliable dictionary of American English
