Ziegler, 2022-04-27 This volume re-examines the history of twentieth-century Christian theology by tracing key concepts, problems, and themes as they develop in context with new perspectives opened up by contemporary theology itself. The ambition is to illuminate the context, dynamism, and complexities of its traditions and, in doing so, to offer a critical and creative ressourcement for contemporary theologians. The texts in this critical reader engage actively and critically with the position of men in society and church, men's privileged relation to the sacred and to religious authority, the ideals of masculinity as engendered by religious discourse, and alternative trajectories of being in the world, whether spiritually, relationally, or sexually. Each of the texts is introduced by the editor and accompanied by bibliographies that make this the ideal tool for study.
