Reading Like a Girl Sara K. Day, 2013-07 By examining the novels of critically and commercially successful authors such as Sarah Dessen *Someone Like You* Stephenie Meyer the *Twilight* series and Laurie Halse Anderson *Speak* *Reading Like a Girl* Narrative Intimacy in Contemporary American Young Adult Literature explores the use of narrative intimacy as a means of reflecting and reinforcing larger often contradictory cultural expectations regarding adolescent women interpersonal relationships and intimacy *Reading Like a Girl* explains the construction of narrator reader relationships in recent American novels written about adolescent women and marketed to adolescent women Sara K Day explains though that such levels of imagined friendship lead to contradictory cultural expectations for the young women so deeply obsessed with reading these novels Day coins the term narrative intimacy to refer to the implicit relationship between narrator and reader that depends on an imaginary disclosure and trust between the story's narrator and the reader Through critical examination the inherent contradictions between this enclosed imagined relationship and the real expectations for adolescent women's relations prove to be problematic In many novels for young women adolescent female narrators construct conceptions of the adolescent woman reader constructions that allow the narrator to understand the reader as a confidant a safe and appropriate location for disclosure At the same time such novels offer frequent warnings against the sort of unfettered confession the narrators perform Friendships are marked as potential sites of betrayal and rejection Romantic relationships are presented as inherently threatening to physical and emotional health And so the narrator turns to the reader for an ally who cannot judge The reader in turn may come to depend upon narrative intimacy in order to vicariously explore her own understanding of human expression and bonds

Jewish Girls Coming of Age in America, 1860-1920 Melissa R. Klapper, 2007-10-01 *Jewish Girls Coming of Age in America 1860 1920* draws on a wealth of archival material much of which has never been published or even read to illuminate the ways in which Jewish girls adolescent experiences reflected larger issues relating to gender ethnicity religion and education Klapper explores the dual roles girls played as agents of acculturation and guardians of tradition Their search for an identity as American girls that would not require the abandonment of Jewish tradition and culture mirrored the struggle of their families and communities for integration into American society While focusing on their lives as girls not the adults they would later become Klapper draws on the papers of such figures as Henrietta Szold founder of Hadassah Edna Ferber Pulitzer Prize winning author of *Showboat* and Marie Syrkin literary critic and Zionist Klapper also analyzes the diaries memoirs and letters of hundreds of other girls whose later lives and experiences have been lost to

history Told in an engaging style and filled with colorful quotes the book brings to life a neglected group of fascinating historical figures during a pivotal moment in the development of gender roles adolescence and the modern American Jewish community

Thinking Together Angela G. Ray,Paul Stob,2018-04-16 Changes to the landscape of higher education in the United States over the past decades have urged scholars grappling with issues of privilege inequality and social immobility to think differently about how we learn and deliberate Thinking Together is a multidisciplinary conversation about how people approached similar questions of learning and difference in the nineteenth century In the open air in homes in public halls and even in prisons people pondered recurring issues justice equality careers entertainment war and peace life and death heaven and hell the role of education and the nature of humanity itself Paying special attention to the dynamics of race and gender in intellectual settings the contributors to this volume consider how myriad groups and individuals many of whom lived on the margins of society and had limited access to formal education developed and deployed knowledge useful for public participation and public advocacy around these concerns Essays examine examples such as the women and men who engaged lecture culture during the Civil War Irish immigrants who gathered to assess their relationship to the politics and society of the New World African American women and men who used music and theater to challenge the white gaze and settler colonists in Liberia who created forums for envisioning a new existence in Africa and their relationship to a U S homeland Taken together this interdisciplinary exploration shows how learning functioned not only as an instrument for public action but also as a way to forge meaningful ties with others and to affirm the value of an intellectual life By highlighting people places and purposes that diversified public discourse Thinking Together offers scholars across the humanities new insights and perspectives on how difference enhances the human project of thinking together
