*Dickens, Dali & Others* George Orwell, 1946 Donated by Sydney Harris      *Dickens, Dali & Others* George Orwell (Pseud.), 1946      *Encyclopedia of British Humorists* Steven H. Gale, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company      George Orwell the Essayist Peter Marks, 2015-04-03 George Orwell is acclaimed as one of English literature's great essayists Yet while many are considered classics as a body of work his essays have been neglected Peter Marks provides the first sustained study of Orwell the essayist giving these compelling pieces the critical attention they merit Orwell employed the essay as a tool to entertain illuminate and provoke readers across an array of topics Marks situates the essays in their original contexts exploring how journals influenced the type of essay Orwell wrote Acknowledging this periodical culture helps explain the tactics Orwell employed the topics he chose and the audiences he addressed Orwell's first and last published works were essays providing evidence of the development of his cultural and political views over two decades Essays helped him fashion his distinctive literary voice and Mark traces how their afterlife contributes to Orwell's posthumous reputation Arguing the essays are central to Orwell's enduring literary political and cultural value Marks shows how we understand the complexities subtleties and contradictions of Orwell better when we understand his essays      The Paradox of George Orwell Richard Joseph Voorhees, 1986      *The Artist and Political Vision* Benjamin R. Barber, Michael J. Gargas McGrath, Art and politics are often regarded as denizens of different realms but few artists have been comfortable with the notion of a purely aesthetic definition of art The artist has a public and thus political vision of the world interpreted by his art no less than the statesman and the legislator have a creative vision of the world they wish to make The sixteen original essays in this volume bear eloquent witness to this interpenetration of art and politics Each confronts the intersection of the aesthetic and the social each is concerned with the interface of poetic vision and political vision of reflection and action They take art in the broadest sense ranging over poets dramatists novelists essayists and filmmakers Their focus is on art and its political dilemmas not simply on the artist They consider the issues raised for politics and culture by alienation violence modernization technology democracy progress and revolution And they debate the capacity of art to stimulate social change and incite revolution the temptations of social control of culture and of political censorship the uncertain relationship between art and history the impact of economic structure on artistic creation and of economic class on artistic product the common ground between art and legislation and between creativity and control

The Frankenstein of 1790 and Other Lost Chapters from Revolutionary France Julia V. Douthwaite, 2012-09-27 The French Revolution brings to mind violent mobs the guillotine and Madame Defarge but it was also a publishing revolution Douthwaite explores how the works within this corpus announced the new shapes of literature to come and reveals that vestiges of these stories can be found in novels by the likes of Mary Shelley      *The Evolution of Alienation* Lauren

Langman,Devorah Kalekin-Fishman,2006 *The Evolution of Alienation Trauma Promise and the Millennium* presents a collection of essays that examine the prevalence of alienation in the contemporary world Although the authors share a critical approach to society their views of alienation vary While some feel that alienation is inescapable under the conditions of late modernity others see that especially at this time there are opportunities to overcome alienation Testing their approaches the authors touch on highly diverse domains of life The book is divided into four sections each with a focus on how alienation is produced and perhaps overcome Part I presents theoretical approaches to shifting views of alienation Here the authors discuss how alienation is disclosed in social science in technology and in biological constructions of the human being Part II deals with political consequences of alienation The three chapters focus on how alienation can lead to fascist beliefs how it functions in the development of authoritarian personalities and how alienation is disclosed in teen age violence but also in the justice meted out to desperate teens without compassion Part III includes examinations of alienation in identity culture and religion Here researchers discuss how the alienating conditions of globalization create alienated identities that are carnivalized in shock music and in exploitative television shows The last chapter of this section sees in these developments evidence of our inability or unwillingness as social scientists to deal with transcendental values Part IV focuses on phenomena from everyday life showing how alienation undermines the advantages of community and the intimacies of dialogue Although the very concern with alienation shows awareness of trauma there are throughout the book hints of promise in technology in loving and creative domesticity in activism and through grass roots initiatives in education Through an interest in the cosmos human being may yet discover the way out of alienating labyrinths **Dickens and Mammon:**
