Dictatorship Over Needs Ferenc Fehér, Agnes Heller, György Márkus, 1983-01-01      Dictatorship Over Needs Ferenc Fehér, Agnes Heller, György Márkus, 1983-01      *Dictatorship over needs : an analysis of soviet societies* Ferenc Fehér, Ágnes Heller, György Márkus, 1984      *Dictatorship Over Needs* Ferenc Fehér, 1983      **From Neo-Marxism to Democratic Theory** Andrew Arato, 2016-09-16 The essays in this volume trace an intellectual odyssey a search for a genuinely critical theory The book begins with the question of why the Frankfurt School as well as other neo Marxist and post Marxist analysts both in the West and in dissident circles in the East failed to produce a critical theory of Soviet socialism or to establish a dynamic relationship with contemporary social movements As the political struggle in Eastern Europe intensified the author of this book disengaged from his own efforts to reconstruct a critical Marxism Instead he attempts a reconstruction of democratic theory based on civil society rather than class categories and with a critical relevance not only to the transition from state socialism but more generally to the universal goal of emancipation      Engaging Agnes Heller Katie Terezakis, 2009-01-01 This collection of essays examines the life and thought of Agnes Heller who rose to international acclaim as a Marxist dissident in Eastern Europe then went on to develop one of the most comprehensive oeuvres in contemporary philosophy putting forward a distinctive ethical theory and analyses of a vast range of topics covering most every philosophical area Here philosophers sociologists journalists and political scientists contextualize compare and assess different elements of Heller s work the collection as a whole highlights relevant shifts within that work as well as its intrinsic consistency Essays in the collection address the relationship between philosophy political practice and everyday life Heller s theory of modernity and her ethical theory her recent scholarship on comedy and the Biblical book of Genesis her theories of radical needs and radical politics her aesthetic theory and questions about her relationship to feminist theory The collection includes Heller s reflections on the collected essays as well as an early essay on her mentor Lukacs that exposes her own steadfast engagement with certain practical and philosophical issues throughout her life s work      *Towards a Radical Democracy (Routledge Revivals)* Douglas Brown, 2013-12-19 Originally published in 1988 this is the first systematic account of the writings of Hungarian dissidents and former students of George Lukacs collectively known as the Budapest School Dr Brown demonstrates the importance of their work in contributing to a logically consistent yet realistic theory of socialist mixed economies and genuine radical democracies The Budapest School s model of radical democracy represents a critique of both industrial capitalism and existing socialist systems with immediate political as well as philosophical importance Dr Brown is particularly concerned to draw out its significance for the practical realities of political economy and the logical implications for desirable reform of Western mixed economies      **In Marx's Shadow** Costica Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing

attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and nonofficial discourses and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989
