70    Dictionary of Basic Military Terms: A Soviet View Ministry of Defense of the Ussr,2019-03-10 This is a PRINT  
REPLICA of a Dictionary of Basic Military Terms that was released by the Ministry of Defense of the USSR in April 1965 This  
dictionary provides the definition of military words and is a translation and transliteration of the Russian words used by the  
military Due to the age of the document some of today s terminology is noticeably lacking drones internet cyber and  
informatization but the rest is pretty familiar Unfortunately I was only able to find a copy that was in poor condition so some  
of the pages are smudged or have some words obscured but there is enough to make out most of it If anyone has a good copy  
I would be glad to borrow it scan the missing information and release an update Otherwise this is the best anyone can do  
with this material When searching for the Russian word or phrase for an English military concept I recommend the Index at  
the back of the book as the place to start Why buy a book you can download for free We print this book so you don t have to  
First you gotta find a good clean legible copy and make sure it s the latest version not always easy Some documents found on  
the web are missing some pages or the image quality is so poor they are difficult to read We look over each document  
carefully and replace poor quality images by going back to the original source document We proof each document to make  
sure it s all there including all changes If you find a good copy you could print it using a network printer you share with 100  
other people typically its either out of paper or toner If it s just a 10 page document no problem but if it s 250 pages you will  
need to punch 3 holes in all those pages and put it in a 3 ring binder Takes at least an hour It s much more cost effective to  
just order the latest version from Amazon com This book includes original commentary which is copyright material Note that  
government documents are in the public domain We print these large documents as a service so you don t have to The books  
are compact tightly bound full size 8 1 2 by 11 inches with large text and glossy covers 4th Watch Publishing Co is a
