*Walford's Guide to reference material.* Albert John Walford,1995

[Essential Quotes for Scientists and Engineers](#) Konstantin K. Likharev,2021-02-27 This book brings together about 2 500 quotations on various topics of interest to scientists and engineers including students of STEM disciplines Careful curation of the material by the editor provides the reader with far greater value than can be obtained by searching the internet The quotes have been selected for various attributes including importance of topic depth of insight and not least wit with many of them satisfying all these criteria To make sequential reading of the quotes more engaging they are grouped into broad topical sections and the entries within each section are organized thematically forming quasi continuous narrative threads The text and authorship of each quote have been carefully verified and the most popular cases of misquotation and misattribution are noted The book represents a valuable resource for those writing science and engineering articles as well as being a joy to read in its own right

**Reference and Information Services** Kay Ann Cassell ,Uma Hiremath,2019-01-04 Designed to complement every introductory library

reference course this is the perfect text for students and librarians looking to expand their personal reference knowledge teaching failsafe methods for identifying important materials by matching specific types of questions to the best available sources regardless of format Guided by a national advisory board of educators and practitioners this thoroughly updated text expertly keeps up with new technologies and practices while remaining grounded in the basics of reference work Chapters on fundamental concepts major reference sources and special topics provide a solid foundation the text also offers fresh insight on core issues including ethics readers advisory information literacy and other key aspects of reference librarianship selecting and evaluating reference materials with strategies for keeping up to date assessing and improving reference services guidance on conducting reference interviews with a range of different library users including children and young adults a new discussion of reference as programming important special reference topics such as Google search 24 7 reference and virtual reference and delivering reference services across multiple platforms As librarians experience a changing climate for all information services professionals in this book Cassell and Hiremath provide the tools needed to manage the ebb and flow of changing reference services in today's libraries
