P. MacKenzie,2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen

counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers Flying against Fate expands our understanding of a major aspect of the psychology of war in the air and of World War II

A Pathfinder's Story W. W. Robinson,2007-11-12 When he died in 1946 Flight Lieutenant Jack Mossop left behind a widow and child a chest full of medals and a diary He was 25 years old The diary gave tantalizing glimpses of his career sixty years on his son has uncovered the truth It is the story of an ordinary Durham lad called upon to perform extraordinary deeds Serving initially as a Wireless Operator in 49 Squadron he progressed to 76 Squadron under the legendary Leonard Cheshire and finished as a Deputy Master Bomber with the elite Pathfinder Group in 35 Squadron To complete even one tour of duty was against the odds To complete a second and then to volunteer for a third was nigh on incredible Small wonder that one of his crewmates called him The bravest man I ever knew It is all the more tragic that he died a civilians death on board a BOAC Lancastrian after the war in suspicious circumstances which attracted the attention of the Prime Minister himself Jack saw most of the great actions of Bomber Command from the 1 000 bomber raids of 1942 to the Battles of the Ruhr and Berlin in 1943 and the daylight operations of Normandy before and after D Day His story stands as a microcosm of the entire bomber campaign Bill Robinsons account is a fascinating and stirring account of courage in war a tribute not only to one mans

courage but also to the courage of the nameless thousands whose stories will now never be told **Lancaster** Leo McKinstry,2009-09-03 The Spitfire and the Lancaster were the two RAF weapons of victory in the Second World War but the glamour of the fighter has tended to overshadow the performance of the heavy bomber Yet without the Lancaster Britain would never have been able to take the fight to the German homeland Highlights the scale of the bomber s achievements including the famous Dambusters attacks With its vast bomb bay ease of handling and surprising speed the mighty Lancaster transformed the effectiveness of the Bomber Command Whilst addressing the political controversy surrounding the bombing offensive against Germany Leo McKinstry also weaves individual tales into this compelling narrative Rich characters are brought to life such as Roy Chadwick the designer who taught himself engineering at night school and Sir Arthur Harris the austere head of the Bomber Command This is a rich saga a story of triumph over disaster and the history of an iconic plane
