CALL FOR PAPERS

Decolonizing Medicine in Africa and its Diaspora

A Hybrid Online/In Person International Conference

(History and Related Disciplines)

September 21 to 24, 2023.

We invite all scholars from any career stage, from around the world, interested in speaking to these questions to participate in this conference. We are particularly interested in scholarship that explores interdisciplinary/ methodological approaches that overcome the dominance of Eurocentrism in modern medicine, and can thereby recover the roles that Africans played in medical sciences, practice, technology, education, policy, and public health.

Please send a 200-word abstract of your proposed paper with a brief biography to jonathan.roberts@msvu.ca and oodunstan@towson.edu by March 1, 2023. Responses will be given by April 1, 2023. Presentation slots are 15 minutes long, followed by discussion.

Organizers: Oluwatoyin Odunstan (Associate Professor, Towson University),
Jonathan Roberts (Associate Professor, Mount Saint Vincent University).

Diaspora Medicine Adesuyi Adeyinka Ajayi, 2001-04-01 **An American Health Dilemma** W. Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of An American Dilemma Gunnar Myrdal s 1944 classic about race relations in the USA An American Health Dilemma presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes An American Health Dilemma promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system *Encyclopedia of Diasporas* Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world s cultures and provides an overview of important topics in the world s diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60

portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies
