

About The shape of the letter **O** probably started as a drawing of a human eye, with a center dot for the pupil. In the Phoenician alphabet, the letter had become a circle and no longer had a center dot. The Greeks made the letter a vowel to represent the *o* sound. In English, the vowel can be long, as in *home*, or short, as in *stop*. It can produce different sounds if it is paired with other vowels.
