Concluding Unscientific Postscript to Philosophical Fragments Søren Kierkegaard,1992 **Concluding unscientific postscript to Philosophical fragments: Historical introduction, supplement, notes, and index** Soren Kierkegaard,1992 **The Concept of Existence in the Concluding Unscientific Postscript** R.H. Johnson,2012-12-06 The writings of Kierkegaard continue to be a fertile source for contemporary philosophical thought Perhaps the most interesting of his works to a philosopher is the Concluding Unscientific Postscript to the Philosophical Fragments The Fragments is a brief algebraic piece in which the author attempts to put forward the central teachings of Christianity in philosophical terminology The work is addressed to a reader who has a philosophical bent and who may therefore be tempted

to relate to Christianity via such questions as Can the truth of Christianity be established The analysis of the Fragments establishes that this way of relating to Christianity is misguided since Christianity and philosophy are categorically different Having done this the author turns his attention in the Postscript to the question of how an individual human being can properly establish a relationship to Christianity In order to become a Christian one must first of all exist Nothing more than thatP one may be tempted to think Yet at the very core of the Postscript is the notion that to exist as an individual human being is difficult The author goes so far as to claim that men have forgotten what it means to exist International Kierkegaard Commentary: Concluding unscientific postscript to "Philosophical fragments" Robert L.
