

STAGES OF SECOND LANGUAGE ACQUISITION

1

PRE-PRODUCTION

What should you expect at this stage? This stage is also known as the "silent period." Children do not speak, but are actively listening to the sounds and words of the new language that they are immersed in.

What can you do about it? Continue to immerse your child in a rich language environment. Continue to use the new language to elicit nonverbal responses, or ask a child questions in a new language and allow them to respond in their first language.

2

EARLY PRODUCTION

What should you expect at this stage? Children will begin to say a few words and short phrases. There will likely be grammatical errors (*and that's okay!*).

What can you do about it? Ask yes/no questions to children. Accept one or two-word answers. Build basic vocabulary and talk about objects in your surroundings. Read stories and continue to immerse children in a rich language environment.

Mommy

I hungry.

Daddy
bye-bye.

3

SPEECH EMERGENCE

What should you expect at this stage? Children can string words together into phrases, sentences, and questions. Comprehension continues to increase. Grammatical accuracy improves.

What can you do about it? Bring in a diversity of text through stories and educational media. Build academic vocabulary (e.g. introduce different shapes). Write simple stories together.

I want
this shirt.

Where
did dog
go?

[Child can recite
stories with simple
sentence patterns]

4

INTERMEDIATE FLUENCY

What should you expect at this stage? Children gain fluency and can use complex sentences in speech or writing to express opinions and share thoughts. Grammar will be more consistent and accurate.

What can you do about it? Provide opportunities for children to use the language in different subject areas and formal settings. Encourage children to learn new content and concepts in this new language. Move away from focusing only on language development.

I really
don't like...
because...

Remember
when we
did... and
this
happened
and that
happened?

5

ADVANCED FLUENCY

What should you expect at this stage? Children will be proficient and fluent with near-native fluency. Children may misuse idiomatic expressions at times and, depending on the language and the child, may have a slight accent.

What can you do about it? Continue to encourage your child to use the language in authentic social and formal situations and to express themselves consistently.

[Nothing different
from a child's
first language.]

Acquisition Of Syntax In Bilingual Children

Mary E. Miller

Acquisition Of Syntax In Bilingual Children:

The Acquisition of Syntax in Bilingual Children Carolyn Kessler, 1971 The Acquisition of Syntax in Spanish and English Monolingual and Bilingual Children, Ages 5 to 10 Years Gladys Carro-Kowalczyk, 1982 **The Acquisition of Syntax in Spanish and English Monolingual and Bilingual Children, Age 5 to 10 Years** Gladys Carro-Kowalczyk, 1982 **First Language Acquisition of Morphology and Syntax** Pedro Guijarro Fuentes, María Pilar Larrañaga, John Clibbens, 2008

The papers comprising this volume focus on a broad range of acquisition phenomena subject dislocation structural case word order determiners pronouns quantifiers and logical words from different languages and language combinations These include languages with large numbers of speakers French German Spanish and less frequently spoken ones Norwegian Russian Swiss German Hebrew Basque and Serbo Croatian within different language acquisition scenarios and a wide range of populations Most contributions adopt a common theoretical background within the generative approach with the aim to advance discuss and critically analyse other research on first bilingual and language impaired acquisition The various sections of this stimulating volume reflect different theoretical and methodological perspectives of current research investigating morphology and syntax and offer diverging interpretations

The Acquisition of English Syntax by Spanish-English Bilingual Children Concepcion Monreal Valadez-Love, 1976 **The acquisition of Italian and English syntax in bilingual children** Carolyn Kessler, 1971 The Acquisition of Syntax in Romance Languages Vincent Torrens, Linda Escobar, 2006-07-26

This volume includes a selection of papers that address a wide range of acquisition phenomena from different Romance languages and all share a common theoretical approach based on the Principles and Parameters theory They favour discuss and sometimes challenge traditional explanations of first and second language acquisition in terms of maturation of general principles universal to all languages They all depart from the view that language acquisition can be explained in terms of learning language specific rules constraints or structures The different parts into which this volume is organized reflect different approaches that current research has offered which deal with issues of development of reflexive pronouns determiners clitics verbs auxiliaries inflection wh movement resumptive pronouns topic and focus mood the syntax discourse interface and null arguments

The Acquisition of English Syntax by Spanish-English Bilingual Children Concepción Monreal Valadez-Love, 1978 **Language Acquisition Processes in Bilingual Children** Carolyn Kessler, 1984 **Typical and Atypical Language Development in Cultural and Linguistic Diversity** Weifeng Han, Chris Brebner, 2023-09-29

Typical and Atypical Language Development in Cultural and Linguistic Diversity brings together state of the art studies in both typical and atypical language development Placing the topic in the context of cultural and linguistic diversity CALD the book offers readers serious theoretical consideration of the topic and provides implications for multilingual educational and clinical practices The content covers a wide range of topics related to multilingual language development in CALD typical and atypical language development in CALD and the interface between

both the relationship between multilingual competence and academic performance in CALD providing unbiased speech and language measures in CALD and heritage and minority languages education in CALD Each chapter outlines the core theoretical and practical issues and explores both theoretical and pedagogical clinical implications in the area and possible future developments This volume is an essential resource for all those who study research or are interested in multilingual development educational linguistics and clinical linguistics in the CALD context

The Effect of Bilingualism on the Acquisition of English Syntax by Spanish/American Bilingual Children Mary E. Miller,1983

Bilingual Language Development: The Role of Dominance Cornelia Hamann, Esther Rinke, Dobrinka Genevska-Hanke,2019-09-20 It has long been established that bilingual speakers are rarely balanced in their languages so that one language is dominant The contributions to the Research Topic Bilingual Language Development The Role of Dominance focus on the potential effects of language dominance on the competence and processing of bilinguals covering a large variety of language combinations and domains Important aspects of such work are the interplay of L1 maintenance attrition and possible L2 dominance the direction of cross linguistic influence CLI or code mixing as well as the effects of bilingualism on cognitive development each addressed in several contributions However such research presupposes a definition of dominance which is far from being settled This gives rise to considerable differences in the operationalization of the concept across studies The studies in this Research Topic present a multifaceted picture of the role of language dominance for L1 maintenance attrition L2 development and CLI Though a unified story cannot emerge for such a complex subject interesting new venues are explored including the impact of dominance shift during L1 re exposure comparisons of different types of bilingual groups or operationalization of dominance through experiential measures The variety of approaches and results is in part owed to the many language combinations studied and the fact that bilingual children adults and atypical speakers are investigated This diversity constitutes the interest of this Research Topic

Multilingual Individuals and Multilingual Societies Kurt Braunmüller, Christoph Gabriel,2012-08-22 The 25 contributions of this volume represent a selection from the more than 120 papers originally presented at the International Conference on Multilingual Individuals and Multilingual Societies MIMS held in Hamburg October 2010 and organized by the Collaborative Research Center Multilingualism after twelve years of successful research It presents a panorama of contemporary research in multilingualism covering three fields of investigation 1 the simultaneous and successive acquisition of more than one language including language attrition in multilingual settings 2 historical aspects of multilingualism and variance and 3 multilingual communication The papers cover a vast variety of linguistic phenomena including morphology syntax segmental and prosodic phonology as well as discourse production and language use taking both individual and societal aspects of multilingualism into account The languages addressed include numerous Romance Slavic and Germanic varieties as well as Welsh Hungarian Turkish and several South African autochthonous languages

Bilingual First Language Acquisition Adrian Müller,2015-01-13 Seminar paper from the year

2014 in the subject English Language and Literature Studies Linguistics grade 1 3 University of Koblenz Landau language English abstract This research paper focuses how children acquire two or more languages simultaneously from birth on how their achievements can be measured and if their development proceeds similar to monolingual children To a certain extent the argument includes theories of Applied Linguistics and Cognitive Linguistics Therefore this analysis can be used as overview or short introduction about the current research on bilingual first language acquisition and may encourage the reader which might be also a teacher who is likely to face a multilingual environment in his classrooms to enhance his knowledge in this specific area *Assessing Multilingual Children* Sharon Armon-Lotem,Jan de Jong,Natalia Meir,2015-04-28 Second language learners often produce language forms resembling those of children with Specific Language Impairment SLI At present professionals working in language assessment and education have only limited diagnostic instruments to distinguish language impaired migrant children from those who will eventually catch up with their monolingual peers This book presents a comprehensive set of tools for assessing the linguistic abilities of bilingual children It aims to disentangle effects of bilingualism from those of SLI making use of both models of bilingualism and models of language impairment The book s methods oriented focus will make it an essential handbook for practitioners who look for measures which could be adapted to a variety of languages in diverse communities as well as academic researchers

Defining Construction: Insights into the Emergence and Generation of Linguistic Representations Mike Putnam,Matthew Carlson,Antonio Fábregas,Eva Wittenberg,2022-01-04 *Modulators of Cross-Language Influences in Learning and Processing* Anat Prior,Tamar Degani,Zofia Wodniecka,2022-06-01 *Child bilingualism and second language learning* Evangelos A. Afendras,Albertina Pianarosa,1975 *The Sun is Feminine* Traute Taeschner,2012-12-06 Lisa is 4 years and 5 months old and Giulia 3 years and 4 months One morning the girls father is taking them to nursery school L e bravissima ha riscaldato l auto E bravissima vera In praising the sun for having warmed up the car Lisa has referred to it in the feminine gender as in the German die Sonne Her father corrects her by using the masculine gender F E bravissimo E if sale L E un maschietto if sale Is the sun a little boy F E maschife It s masculine G determined E una femmina No it s a girl F Forse in tedesco Perhaps it is in German is left disoriented speechless Giulia This book is devoted to language acquisition in children who have been exposed to two languages since birth It has often been said that the study of simultaneous bilingualism is the most fertile ground for the formulation of general theories on language acquisition processes and indeed most of the studies on early bilingualism aim in this direction But in a sense this book serves the reverse purpose Using the results of psycholinguistic research as a basis I have sought to understand the peculiarities of the process of language organization in the child who faces the problem of learning two languages when other children are learning only one Thus the recurring theme of my study is the diversity of bilingual as opposed to monolingual acquisition **The Next Phase in Heritage Language Studies: Methodological Considerations and Advancements** Fatih Bayram,Maki Kubota,Sergio Miguel

Pereira Soares, 2024-03-27 Over the past three decades studies investigating heritage speaker HS linguistic competencies have shown time and again that despite being L1 or 2L1 native speakers of their home language s HS outcomes display variation across a wide spectrum of differences as compared to each other other types of bilinguals as well as their monolingual peers Studies have traditionally used mostly behavioral methodologies rooted in adjacent established fields e g L1 acquisition adult L2 acquisition offering in addition to documenting and describing HS performance important insights for linguistic theory and challenges related to home minority language maintenance contact policy and more A birds eye view makes it clear that the methodologies one uses to tap into HSs linguistic knowledge areas if not more are important than the phenomena under investigation especially in light of how their unique experiences with their heritage and other languages are present across a continuum
