Re-reading Popular Culture Joke Hermes,2008-04-15 Re reading Popular Culture is an entertaining investigation of the meanings and value of popular culture today It explores the theme of cultural citizenship by combining textual analysis and media reception theory to analyze popular culture Includes such contemporary issues as the rewriting of masculinity after the success of feminism and the layers of meaning in semi public and private talk of multiculturalism and ethnicity Traces its topics across a variety of media forms and texts including sports detective fiction and police series and children s television and games Clearly and accessibly written for the student scholar and general reader

The Child Savage, 1890-2010 Elisabeth Wesseling,2016 Taking up the understudied relationship between the cultural history of childhood and media studies this volume traces twentieth century migrations of the child savage analogy from colonial into postcolonial discourse across a wide range of old and new media Older and newer media such as films textbooks children s literature periodicals comic strips children s radio and toys are deeply implicated in each other through ongoing remediation meaning that they continually mimic absorb and transform each other s representational formats stylistic features and content Media theory thus confronts the cultural history of childhood with the challenge of re thinking change in childhood imaginaries as transformation through repetition patterns rather than as rise shine decline sequences This volume takes up this challenge demonstrating that one historical epoch may well accommodate diverging childhood repertoires which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time

EBOOK: Making Sense of Play: Supporting children in their play Perry Else,2014-08-16 Making Sense of Play straightforwardly describes how self chosen engaging and satisfying play is best for children It explores how adults can best support children s free play with an approach that is holistic inclusive and practical and offers clear tools to highlight better ways of relating to and providing for playing children The book extends two key concepts developed by the author the Integral Play Framework and the Play Cycle showing how practitioners can implement these ideas on a day to day basis The author makes clear how the Integral Play Framework works how it helps makes sense of other models and how it can be used to help plan provision for playing children physically socially cognitively and culturally Everyday practice with

playing children is explored in line with introductory and extended understandings of the Play Cycle or play process. Accessibly written with a rich range of examples showing the concepts in practice these models are further used to explore creativity the ways in which children play how provision might be improved and how the approaches can be used to research practice. With its distinctive blend of theory and practice together with reflective questions this book is essential reading for all playwork students and practitioners and helps put these innovative ideas into practice with playing children. Perry Else's book *Making Sense of Play* is just what we might expect from one of the UK's leading playwork authors. Drawing extensively on Else's work with a number of theorists it is thought provoking in its content and challenging in the breadth of its scope. Those of us who value diagrams and tables as a mechanism for clarifying complex concepts will be rewarded by the format of the chapters. I recommend this book to anyone with an analytical preference and an interest in the way societies cater for the needs of children at play. Fraser Brown, Professor of Playwork, Leeds Beckett University, UK. Perry has the special ability to write a rigorous academic book applying helpful theoretical perspectives to play without ever damaging the precious importance of uninterrupted spontaneous child-led PLAY. Sara Knight, Forest School Association and Anglia Ruskin University, UK. *Making Sense of Play* is an accessible and thought provoking book for all those who are involved or interested in children's play whether they are practitioners, academics, students or tutors. Written in an engaging and informative manner it offers opportunities to deepen understanding about different perspectives on play and how this knowledge can aid adults in supporting play. Notably the inclusion of activities and questions for each chapter are invaluable for consolidating understanding and applying the theory to practice. Julia Sexton, Senior Lecturer in Childhood Studies, Sheffield Hallam University, UK.
