Action That Is Life:

Life and Action Michael Thompson, 2012-03-05 Any sound practical philosophy must be clear on practical concepts concepts in particular of life action and practice This clarity is Michael Thompson's aim in his ambitious work In Thompson's view failure to comprehend the structures of thought and judgment expressed in these concepts has disfigured modern moral philosophy rendering it incapable of addressing the larger questions that should be its focus In three investigations Thompson considers life action and practice successively attempting to exhibit these interrelated concepts as pure categories of thought and to show how a proper exposition of them must be Aristotelian in character He contends that the pure character of these categories and the Aristotelian forms of reflection necessary to grasp them are systematically obscured by modern theoretical philosophy which thus blocks the way to the renewal of practical philosophy His work recovers the possibility within the tradition of analytic philosophy of hazarding powerful generalities and of focusing on the larger issues like life that have the power to revive philosophy As an attempt to relocate crucial concepts from moral philosophy and the theory of action into what might be called the metaphysics of life this original work promises to reconfigure a whole sector of philosophy It is a work that any student of contemporary philosophy must grapple with
