# Actions And Other Events The Unifier Multiplier Controversy

**WJ Hussar**

## **Actions And Other Events The Unifier Multiplier Controversy:**

*Speaking of Events* James Higginbotham, Fabio Pianesi, Achille C. Varzi, 2000-04-13 In recent years the idea that an adequate semantics of ordinary language calls for some theory of events has sparked considerable debate among linguists and philosophers *Speaking of Events* offers a vivid and up to date indication of this debate with emphasis precisely on the interplay between linguistic applications and philosophical implications Each chapter has been written expressly for this volume by leading authors in the field including Nicholas Asher Pier Marco Bertinetto Johannes Brandl Denis Delfitto Regine Eckardt James Higginbotham Alessandro Lenzi Terence Parsons Alice ter Meulen and Henk Verkuyl

**The Identities of Action** Joseph Ulatowski, 2026-03-05 Individuating action depends upon how people comprehend value judgements about the consequences of an action to distinguish or not to distinguish between them

*Understanding Events* Thomas F. Shipley, Jeffrey M. Zacks, 2008-02-25 We effortlessly recognize all sorts of events from simple events like people walking to complex events like leaves blowing in the wind We can also remember and describe these events and in general react appropriately to them for example in avoiding an approaching object Our phenomenal ease interacting with events belies the complexity of the underlying processes we use to deal with them Driven by an interest in these complex processes research on event perception has been growing rapidly Events are the basis of all experience so understanding how humans perceive represent and act on them will have a significant impact on many areas of psychology Unfortunately much of the research on event perception in visual perception motor control linguistics and computer science has progressed without much interaction This volume is the first to bring together computational neurological and psychological research on how humans detect classify remember and act on events The book will provide professional and student researchers with a comprehensive collection of the latest research in these diverse fields

*Reflecting Davidson* Ralf Stoecker, 2011-09-12 No detailed description available for *Reflecting Davidson*

*Actions and Other Events* Karl Pfeifer, 1989 How many things did the gunman do Is his pulling of the trigger the same as his killing of the victim Or are these two different actions or events Such questions are at the heart of the dispute between unifiers and multipliers over the individuation of actions and events In this study Karl Pfeifer defends the unifying approach of G E M Anscombe and Donald Davidson against the criticisms and rival views of Alvin I Goldman and others Along the way the discussion touches on a variety of problems concerning causality time explanation language ontology and identity What finally emerges is a clearer picture of the nature of criteria of identity and individuation for actions and events than has been available to date

*A Measure of Freedom* Ian Carter, 1999-03-25 It is often said that one person or society is freer than another or that people have a right to equal freedom or that freedom should be increased or even maximized Such quantitative claims about freedom are of great importance to us forming an essential part of our political discourse and theorizing Yet their meaning has been surprisingly neglected by political philosophers until now Ian Carter provides the first systematic account of the nature and importance of our judgements

about degrees of freedom He begins with an analysis of the normative assumptions behind the claim that individuals are entitled to a measure of freedom and then goes on to ask whether it is indeed conceptually possible to measure freedom Adopting a coherentist approach the author argues for a conception of freedom that not only reflects commonly held intuitions about who is freer than who but is also compatible with a liberal or freedom based theory of justice *Canadian Philosophical Reviews* ,1992 *The Philosophical Review* ,1990 *The Philosopher's Index* ,1991 Vols for 1969 include a section of abstracts **CURRENT CONTENTS** ,1995 **Subject Guide to Books in Print** ,2001 **Mind** ,1991 Issues for 1896 1900 contain papers of the Aristotelian Society **50 Years of Events** Roberto Casati,Achille C. Varzi,1997 Metaphysik Johannes L. Brandl,Alexander Hieke,Peter M. Simons,1995 **Bibliographic Index** ,1991 **Canadiana** ,1990-04 *Philosophie de l'action* Marc Neuberger,1993 **Unterlassungen** Armin Berger,2004 Haben wir etwas unterlassen wenn wir es tun könnten es aber nicht tun Muss uns dabei bewusst sein dass wir es tun könnten dürfen wir dabei keine Körperbewegungen ausführen wenn wir etwas unterlassen Kann etwas dadurch eine Unterlassung sein dass wir etwas nicht tun was uns geboten war Ist zwischen dem Unterlassen und Unterlassungen zu unterscheiden Um solche und viele weitere Fragen geht es in dieser Arbeit Sie ist dabei die erste philosophische Monographie die dem Thema der Unterlassungen aus handlungstheoretischer Sicht gewidmet ist Zunächst wird eine allgemeine Handlungstheorie entworfen um durch deren Grundlagen einen systematischen Zusammenhang für die weitere Erörterung zu schaffen Für die wesentlichen Begriffe werden Explikationen vorgeschlagen wobei darauf geachtet wird den Unterschied zwischen Unterlassungen und einem bloßen Nichttun zu wahren Die verschiedenen möglichen Positionen werden dargestellt ihre Voraussetzungen aufgezeigt sowie kritisch gegeneinander abgewogen Es wird insbesondere gezeigt warum Unterlassungen nicht allgemein durch körperliche Inaktivität charakterisiert werden können und weshalb es unerlässlich ist bei jedem deskriptiven Unterlassungsbegriff auch normative Aspekte zu berücksichtigen Kritisch betrachtet werden die wenigen einschlägigen Texte zum Thema in systematisch relevanter Hinsicht insbesondere das Buch Tun und Unterlassen von Dieter Birnbacher Abschließend wird der entfaltete Unterlassungsbegriff auf die Ethikdebatte Töten versus Sterbenlassen angewendet und die Konsequenzen in formaler Hinsicht aufgezeigt **Forthcoming Books** Rose Arny,1989 Natur und Person im ethischen Disput Mechthild Dreyer,Kurt Fleischhauer,1998 Die Möglichkeiten des Menschen in die Natur einzugreifen nehmen gegenwärtig in bislang kaum bekanntem Umfang zu und zugleich wächst das Wissen um die Konsequenzen solchen Tuns Beide Momente weisen darauf hin da die Natur nicht nur das Gegenüber und Andere für den Menschen darstellt sondern da er selbst etwas Natürliches ist Er kann aus sich heraus in Form von Leben und Handeln seine ihm eigene und ihm zugleich aufgegebenen Gestalt gewinnen oder verlieren Insofern dieses Handeln gleichermaßen vernunftbestimmt wie individuell ist erweist es sich zudem als ein personales Tun Diesem Zusammenhang von Natur und Person im Kontext der aktuellen philosophischen Forschung gehen die Autoren des Bandes nach

## Embracing the Beat of Phrase: An Psychological Symphony within **Actions And Other Events The Unifier Multiplier Controversy**

In some sort of used by monitors and the ceaseless chatter of instant conversation, the melodic beauty and psychological symphony developed by the published term usually diminish into the backdrop, eclipsed by the relentless sound and disruptions that permeate our lives. Nevertheless, situated within the pages of **Actions And Other Events The Unifier Multiplier Controversy** a charming literary value filled with raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant musician of language, this charming masterpiece conducts visitors on a mental trip, well unraveling the hidden tunes and profound impact resonating within each cautiously constructed phrase. Within the depths with this emotional assessment, we can explore the book is central harmonies, analyze their enthralling publishing design, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
