Active Life Millers Metaphysics Of Democracy:

The Active Life Michael J. McGandy, 2012-02-01 The ancient antagonism between the active and the contemplative lives is taken up in this innovative and wide ranging examination of John William Miller s effort to forge a metaphysics of democracy The Active Life sheds new light on Miller s actualist philosophy its scope its systematic character and its dialectical form Michael J McGandy persuasively sets Miller s actualism in the context of Hannah Arendt s understanding of the active life and skillfully presents actualism as a response to Whitman s challenge to craft a democratic form of metaphysics McGandy concludes that Miller reveals how the philosophical and the political are inextricably connected how there is no active life without the contemplative life and that the contemplative life is founded in the active life **The**

Active Life Michael J. McGandy, 2005-08-25 The ancient antagonism between the active and the contemplative lives is taken up in this innovative and wide ranging examination of John William Miller s effort to forge a metaphysics of democracy The Active Life sheds new light on Miller s actualist philosophy its scope its systematic character and its dialectical form Michael J McGandy persuasively sets Miller s actualism in the context of Hannah Arendt s understanding of the active life and skillfully presents actualism as a response to Whitman s challenge to craft a democratic form of metaphysics McGandy concludes that Miller reveals how the philosophical and the political are inextricably connected how there is no active life without the contemplative life and that the contemplative life is founded in the active life **The Reinvention of Idealism**

Katie Terezakis, 2025-11-27 This work examines attempts to go beyond Kantian idealism in American philosophies as well as intentional recuperations of critical idealism Introducing J W Miller into arguments about agency language and method it uncovers a radically historical deepening of the critical project across a range of still evolving positions **American**

Philosophy: An Encyclopedia John Lachs, 2008-03-31 The Encyclopedia of American Philosophy provides coverage of the major figures concepts historical periods and traditions in American philosophical thought Containing over 600 entries written by scholars who are experts in the field this Encyclopedia is the first of its kind It is a scholarly reference work that is accessible to the ordinary reader by explaining complex ideas in simple terms and providing ample cross references to facilitate further study The Encyclopedia of American Philosophy contains a thorough analytical index and will serve as a standard comprehensive reference work for universities and colleges Topics covered include Great philosophers Emerson Dewey James Royce Peirce Santayana Subjects Pragmatism Progress the Future Knowledge Democracy Growth Truth Influences on American Philosophy Hegel Aristotle Plato British Enlightenment Reformation Self Assessments Joe Margolis Donald Davidson Susan Haack Peter Hare John McDermott Stanley Cavell Ethics Value Pleasure Happiness Duty Judgment Growth Political Philosophy Declaration of Independence Democracy Freedom Liberalism Community Identity **Richard J.**

Bernstein and the Expansion of American Philosophy Marcia Morgan, Megan Craig, 2016-12-24 Thinking The Plural Richard J Bernstein and the Expansion of American Philosophy is a text devoted to highlighting scrutinizing and deploying

Bernstein's philosophical research as it has intersected and impacted American and European philosophy. Collecting essays written explicitly for the volume from former students of Bernstein's, the book shows the breadth and scope of his work while expanding key insights into new contexts and testing his work against thinkers outside the canon of his own scholarship. In light of urgent contemporary ethical and political problems, the papers collected here show the continuing relevance of Bernstein's lifelong focus on democracy, dialogue, pragmatism, fallibilism, and pluralism. Bernstein has always contested the supposed Analytic-Continental divide, insisting on the pluralism of philosophical discourses and styles that contribute to genuine debate and save philosophy from stale academicism. This book enacts Bernstein's pluralistic spirit by crossing traditions and generating new avenues for ongoing research. A central argument of the book is that thinkers of different backgrounds using diverse and even clashing methodologies contribute to the understanding of a given problem, issue, or theme. This argument lies at the heart of Bernstein's published works and is central to the fallibilistic pragmatism of his pedagogy. This book therefore does not rest on a single answer to a question or a univocal theme but shows the differentiation of Bernstein's scholarship through the extension of pluralism into territory Bernstein himself did not enter. The chapters individually and collectively demonstrate the force of Bernstein's pluralism beyond mere commentary on his works. This book will be of interest to many people: 1. scholars, students, and others in American philosophy who have worked on or with Richard J. Bernstein or in the tradition of American Pragmatism, widely construed; 2. those interested in the intersections between American and European philosophy or between the Analytic and Continental traditions; 3. professional philosophers, philosophy students, and public intellectuals concerned with the application of theory to contemporary ethical and political problems; and 4. those interested in an introduction to the key concepts animating Bernstein's work and their relationship to the history of philosophy.

Commonplace Commitments Peter S. Fosl, Michael J. McGandy, Mark D. Moorman, 2016-09-30

Joseph P. Fell proposes that the solution to the problem of nihilism is found in the common experience of persons and the everyday commitments that one makes to people, practices, and institutions. In his landmark 1979 book *Heidegger and Sartre* and in his subsequent essays, Fell describes a quiet but radical reform in the philosophical tradition that speaks to perennial dilemmas of thought and pressing issues for action. Since Descartes, at least, we have been puzzled as to what we can know, how we should act, and what we should value. The skeptical influence of modern dualism, distilled in the mind-body problem, arose with the assertion "I think, therefore I am," which has shot through not just philosophy and psychology but also society, politics, and culture. With dualism arose radical subjectivism and the concomitant problems of nihilism and alienation. The broad aim of phenomenology is to repair the rupture of self and world, announced by Edmund Husserl and developed by Jean-Paul Sartre, Martin Heidegger, and John William Miller, who drew from the North American tradition. This is the project to which Fell has devoted more than a half century of reflection and technical elaboration. In this volume, an array of scholars consider, criticize, and cultivate Fell's key contributions to the phenomenological project. Ranging from analyses of

key texts in Fell s phenomenology to probing examinations of his crucial philosophical presuppositions to the prospects for Fell s call to find the solution to nihilism in everyday experience these essays gather the work of the authors thinking with and through Fell s key works on Sartre Heidegger and Miller Also included are seminal statements from Fell on his pedagogical practice and his conception of philosophy
