Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like *Gone with the Wind* 1939 and *Lawrence of Arabia* 1962 have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation The Encyclopedia of Epic Films identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D W Griffith and biblical melodramas of Cecil B DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu ray availability Resources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale Casting Might-Have-Beens Eila Mell, 2015-01-24 Some acting careers are made by one great role and some fall into obscurity when one is declined Would Al Pacino be the star he is today if Robert Redford had accepted the role of Michael Corleone in *The Godfather* Imagine Tom Hanks rejecting Uma Thurman saying that she acted like someone in a high school play when she auditioned to play opposite him in *The Bonfire of the Vanities* Picture Danny Thomas as *The Godfather* or Marilyn Monroe as *Cleopatra* This reference work lists hundreds of such stories actors who didn't get cast or who turned down certain parts Each entry organized alphabetically by film title gives the character and actor cast a list of other actors considered for that role and the details of the casting decision Information is drawn from extensive research and interviews From *About Last Night* which John Belushi turned down at his brother's urging to *Zulu* in which Michael Caine was not cast because he didn't
