Cultures in Flux, 1994-01-01 Popular Theater and Society in Tsarist Russia E. Anthony Swift, 2002-12-30 This is the most comprehensive study available of the popular theater that developed during the last decades of tsarist Russia Swift examines the origins and significance of the new people's theaters that were created for the lower classes in St Petersburg and Moscow between 1861 and 1917 His extensively researched study full of anecdotes from the theater world of the day shows how these people's theaters became a major arena in which the cultural contests of late imperial Russia were played out and how they contributed to the emergence of an urban consumer culture during this period of rapid social and political change Swift illuminates many aspects of the story of these popular theaters the cultural politics and aesthetic ambitions of theater directors and actors state censorship politics and their role in shaping the theatrical repertoire and the theater as a vehicle for social and political reform He looks at roots of the theaters discusses specific theaters and performances and explores in particular how popular audiences responded to the plays *Politics and the People in Revolutionary Russia*

Sarah Badcock, 2007-10-04 After the collapse of the Romanov dynasty in February 1917 Russia was subject to an eight month experiment in democracy Sarah Badcock studies its failure through an exploration of the experiences and motivations of ordinary men and women urban and rural military and civilian Using previously neglected documents from regional archives this text offers a history of the revolution as experienced in the two Volga provinces of Nizhegorod and Kazan Badcock exposes the confusions and contradictions between political elites and ordinary people and emphasises the role of the latter as political actors By looking beyond Petersburg and Moscow she shows how local concerns conditions and interests were foremost in shaping how the revolution was received and understood She also reveals the ways in which the small group of intellectuals who dominated the high political scene of 1917 had their political alternatives circumscribed by the desires and demands of ordinary people Of Camel Kings and Other Things Roxann Prazniak, 1999 From the perspective of village activists across China this book tells the stories of farmers and rural laborers who raised the banner of opposition to constitutional reform during the first decade of the twentieth century The author brings to life the stories of the Camel King of Zunhua county Qu Shiwen and the Four Mountains of Laiyang county and many others who criticized government modernization efforts known collectively as the New Policy Using county archives including oral histories as well as memoirs periodical literature missionary records and official documents both Chinese and foreign *Of Camel Kings and Other Things* constructs from fragmented sources a coherent historical view vital to our understanding of China's twentieth century crises and the dilemmas of modernity itself **Face to the Village** Tracy McDonald, 2016-11-14 In the summer of 1924 the Bolshevik Party called on scholars the police the courts and state officials to turn their attention to the villages of Russia The subsequent campaign to face the countryside generated a wealth of intelligence that fed into the regime's sense of alarmed conviction that the countryside was a space outside Bolshevik control Richly rooted in archival sources including local and

central level secret police reports detailed cases of the local and provincial courts government records and newspaper reports Face to the Village is a nuanced study of the everyday workings of the Russian village in the 1920s Local level officials emerge in Tracy McDonald s study as vital and pivotal historical actors existing between the Party s expectations and peasant interests McDonald s careful exposition of the relationships between the urban centre and the peasant countryside brings us closer to understanding the fateful decision to launch a frontal attack on the countryside in the fall of 1929 under the auspices of collectivization Writers Directory M-Z Miranda Herbert Ferrara,2004-06 This comprehensive resource features up to date bibliographical biographical and contact information for approximately 20 000 living authors worldwide who have at least one English publication Entries typically include name pseudonyms addresses citizenship birth date specialization career information and a bibliography Contact information includes e mail addresses where available

Melancon,Alice K. Pate,2002 **Ruling Peasants** Corinne Gaudin,2007 Ruling Peasants challenges this dominant paradigm of the closed village by investigating the ways peasants engaged tsarist laws and the local institutions that were created in a series of contradictory legal administrative and agrarian reforms from the late 1880s to the eve of World War I Gaudin s analysis of the practices of village assemblies local courts and elected peasant elders reveals a society riven by dissension As villagers argued among themselves in terms defined by government the peasants and their communities were transformed Key concepts such as custom commune property and fairness were forged in such dialogue between the rulers and the ruled **BOOK JACKET** *A War of Images* Stephen M. Norris,2006 The lubok a broadside or poster played an important role in Russia s cultural history Evolving as a medium for communication with a largely illiterate population the popular prints were adapted to express political propaganda Stephen Norris examines the use of such prints to stir patriotic fervor during times of war from Napoleon s failed attempt at conquering Russia to Hitler s invasion Norris shows how visual images of patriotism and expressions of the Russian spirit changed over time yet remained similar The lubok produced during Russia s modern wars consistently featured the same key elements the Russian peasant the Cossack and a representation of the Russian spirit When Russia was victorious occasionally the tsar figured into the imagery but by the beginning of the 20th century ethnic identity had replaced dynastic representations of Russian nationhood After the Revolutions of 1917 Bolshevik and Soviet leaders appropriated the traditional elements of the wartime lubok to promote their vision of the new socialist state The political power of lubok imagery did not end with the Bolsheviks adaptations During World War II political posters similar to those of the tsarist era reemerged to express and to reinforce Russia s culture of patriotism and strength Amply illustrated A War of Images is the first comprehensive study of how popular prints helped to construct national identity in Russia over a period of more than a century Readers interested in Russian art history and
