Low, 1981 The Classic of Supporting Life with Acupuncture and Moxibustion: Lorraine Wilcox, 2014-06-10 The Zh n J u Z Sh ng J ng The Classic of Supporting Life with Acupuncture and Moxibustion by Wang Zhizhong as translated by Yue Lu with editing by Lorraine Wilcox is an absolutely phenomenal resource for the clinical use of acupuncture and moxibustion This text stands out amongst many of the Classics for several reasons the first of which is that Wang Zhizhong was a keen researcher who would not only compare source materials against each other but also cite which source materials he compared and how they were the same or different Secondly while Wang was a gatherer of information he was also practical and this book is filled with his many many pearls of how he used a point prescription why and what the results were of his own tests of the material Thirdly to date there is no other classical material which is as complete in subject matter as the Zh n J u Z Sh ng J ng Wang categorized not only the point locations and how to use the points with what method but systematically collated 196 disease patterns from the most exterior down to the deepest levels documenting multiple presentations and treatments for each pattern Lastly Wang s primary focus was on supporting or nourishing life through the use of these techniques and therefore there are a significant number of these treatments that either use moxibustion as the primary treatment method or use moxibustion after the primary treatment method In the modern age we are extremely lucky to have access to the classical sources for East Asian Medicine and this is partly because of the hard work of translators like Yue Lu and Lorraine Wilcox *Research on Acupuncture, Moxibustion, and Acupuncture Anesthesia* Xiangtong Zhang, 1986 Sticking to the Point: A study of acupuncture & moxibustion formulas & strategies Bob Flaws, 1998 A new revised edition of the first book for students and practitioners which explains how to do TCM style acupuncture This book explains in depth how to do a complex individualized TCM pattern discrimination how to arrange and make sense of a welter of confusing signs and symptoms and how to think using TCM terms and statement of fact Western students and beginning practitioners will find this book an invaluable aid in honing their ability to understand and use TCM Although specifically about acupuncture the method presented in this book can be used to erect a TCM treatment plan using any Chinese modality Chinese herbs Chinese dietary therapy tui na or Chinese massage or qi gong Chinese energy exercises

Included in this book are the functions of the main points of acupuncture and the functions of the main two and three point combinations
