*Dropshipping Shopify E-commerce* Tim Murphy, 2021-02-03 The ultimate aim of every business is to maximize profits In order to get the most out of the market a business is expected to offer quality products and services to the consumers it serves The secret for satisfying the utility of consumers is creating a deep connection with them to understand their interests and how you can enhance your business Also you must present your products services in the market in a way that is appealing This entails the use of various marketing concepts and aligning your strategies with the relevant trends in your industry When it comes to earning an income online in 2021 and beyond there is a need to understand how to drive traffic to your website in a cheap efficient and consistent manner It is indisputable that drop shipping has become the mainstay for a large section of e commerce It serves as your home base starting point and customers destination for you Your entire brand on e commerce can rest on your drop shipping store You will log into it every day to check the trends on the visits of all your important audiences to try and turn them into paying customers It is important to learn how to maximize value for your store by marketing on social media It is an effective way of reaching a wide audience easily considering that more than a third of the total global population is on social media It is also a sure and efficient manner of turning the audience into loyal customers because it encourages engagement The fact that social media allows for a two way mode of communication makes it easy for consumers to converse with the brands they are interested in Perhaps the best thing about social media promotion is that it provides a level playing field for small medium and large enterprises The same audience that a large business can access is the same that a start up business can access Notwithstanding it doesn't take up a huge budget to create a large number of social media fans in a short time This forms the confidence that you can make it on social media even if you are a beginner However how well it works for your business depends on the efforts you put into it If you have tried before and failed you have probably not followed the best tactics there are to grow your brand on social media Despite social media marketing being among the greatest phenomena in the digital era some marketers are not able to achieve their social media marketing goals It takes careful planning and the use of effective strategies to make the best use of social media and grow your brand

**Dropshipping Shopify 2021** Robert D. Michaels, 2021-08-01 Imagine a business where you could sell whatever you wanted without having to handle the product physically and being able to charge whatever price you wanted to charge on it This is essentially what dropshipping amounts to It is a wonderful business model you're going to learn all about it inside and out in this chapter There are some disadvantages as well that would be remiss of me not to remind you of I'll cover those as well since it is unrealistic for you to assume that everything will always be hunky dory Either way let's jump in and look at what dropshipping is Dropshipping is the process where a middleman retails a manufacturer's or wholesaler's product The middleman in this case is you the store owner The store owner takes care of all of the marketing aspects and drives traffic to the order pages and the wholesaler takes care of product fulfillment such as delivery and packaging In some

cases you can even have the manufacturer brand the product with your own name and have them ship it to your customers. This business model is of immense help to the manufacturer and wholesaler since they get to focus on investing in what they know best which is manufacturing the product. You get to focus on what you know best which is to drive traffic and bring in sales. In effect you're a one person marketing team for the wholesaler's products. What's not to like? The customer will order the product via your website or sales channel and will pay you money. In turn you pay the wholesaler at their quoted price and you pocket the profits. The great thing about this business model is that it reduces inessential costs for all parties involved. Your startup costs are significantly lower than traditional retailers. This doesn't mean you can start for free. As I'll explain later it is in your best interest not to do so. However you get to skip all of those painful inventory and purchasing costs. In essence you get to run your business on a consignment basis from the wholesaler which is to say that you pay only when you receive an order from a customer.
