Hickleglee Christopher Taylor, 2019-10 An allegorical American in 2019 sets the stage for this tale of a land where peace prosperity and opportunity reign That is until election time A new leader rises Thump Agramon rides to power on his slogan Make Hickleglee Great Again Immigration problems arise which are thinly painted with racism and bigotry The environment is deteriorating and Fake News seems to be the only news Behind it all a weasel named Puton seeks to manipulate Thump The color of one s fur determines his or her status and many are blinded to the moral degradation occurring That is until four rabbits decide to take on the powerhouse that has become a dictatorship Twists and turns abound until an unlikely alliance is formed between the bunnies a snake and an old beaver who plot to stop the madness in a last ditch effort to save Hickleglee

Clear as Mud Robert B. Olshansky, Laurie Johnson, 2017-11-08 Planning the rebuilding of New Orleans after Hurricanes Katrina and Rita has been among the greatest urban planning challenges of our time Since 2005 Robert B Olshansky and Laurie A Johnson urban planners who specialize in disaster planning and recovery have been working to understand in real time the difficult planning decisions in this unusual situation As both observers of and participants in the difficult process of creating the Unified New Orleans Plan Olshansky and Johnson bring unparalleled detail and insight to this complex story The recovery process has been slow and frustrating in part because New Orleans was so unprepared for the physical challenges of such a disaster but also because it lacked sufficient planning mechanisms to manage community reconstruction in a viable way New Orleans has had to rebuild its buildings and institutions but it has also had to create a community planning structure that is seen as both equitable and effective while also addressing the concerns and demands of state federal nonprofit and private sector stakeholders In documenting how this unprecedented process occurred Olshansky and Johnson spent years on the ground in New Orleans interviewing leaders and citizens and abetting the design and execution of the Unified New Orleans Plan Their insights will help cities across the globe recognize the challenges of rebuilding and recovering after disaster strikes

Poverty Politics Sarah Robertson, 2019-08-23 Representations of southern poor whites have long shifted between romanticization and demonization At worst poor southern whites are aligned with racism bigotry and right wing extremism and at best regarded as the passive victims of wider socioeconomic policies In *Poverty Politics Poor Whites in Contemporary Southern Writing* author Sarah Robertson pushes beyond these stereotypes and explores the impact of neoliberalism and welfare reform on depictions of poverty Robertson examines representations of southern poor whites across various types of literature including travel writing photo narratives life writing and eco literature and reveals a common interest in communitarianism that crosses the boundaries of the US South and regionalism moving past ideas about the culture of poverty to examine the economics of poverty Included are critical examinations of the writings of southern writers such as Dorothy Allison Rick Bragg Barbara Kingsolver Tim McLaurin Toni Morrison and Ann Pancake *Poverty*

Politics includes critical engagement with identity politics as well as reflections on issues including Hurricane Katrina the 2008 financial crisis and mountaintop removal Robertson interrogates the presumed opposition between the Global North and the Global South and engages with microregions through case studies on Appalachian photo narratives and eco literature Importantly she focuses not merely on representations of southern poor whites but also on writing that calls for alternative ways of reconceptualizing not just the poor but societal measures of time value and worth *Multimedia Explorations in Urban Policy and Planning* Leonie Sandercock, Giovanni Attili, 2010-04-10 The book is a collection of essays exploring the potential of multimedia to enrich and transform the planning field By multimedia the authors refer to a broad range of new information and communication technologies from film and video to digital ethnography and the internet which are opening up new possibilities in planning practices processes pedagogy and research The authors document the ways in which these ICTs can expand the language of planning and the creativity of planners can evoke the lived experience the spirit memories desires of our 21st century mongrel cities by engaging with stories and storytelling and can democratise planning practices The text is epistemologically radical in presenting an argument for the importance of multiple languages ways of knowing in the planning field and making the connection between this epistemology and the almost infinite potential of Multimedia to provide varied tools to accomplish this transformation displacing the supremacy of the rational linear and hierarchical with more open playful and imaginative approaches Each of the authors brings practical experience with different forms of Multimedia use and reflects on the different potentialities offered by Multimedia for critical intervention in urban and regional issues and the power dynamics embedded in such interventions **Prevention of Deceptive Practices and Voter Intimidation in Federal Elections** United States.
