Acting Well:

Aristotelian Ethics in Contemporary Perspective Julia Peters, 2013 By bringing together influential critics of neo Aristotelian virtue ethics and some of the strongest defenders of an Aristotelian approach this collection provides a fresh assessment of the strengths and weaknesses of Aristotelian virtue ethics and its contemporary interpretations Contributors critically discuss and re assess the neo Aristotelian paradigm which has been predominant in the philosophical discourse on virtue for the past 30 years Plato on Justice and Power Kimon Lycos, 1987-05-27 Book 1 of Plato s Republic is often treated as a merely negative prelude to the theory of justice presented in the main body of that book This study argues that though an introduction to later ideas Book 1 has its own positive theme and function to press for the acceptance of a certain perspective on justice that is opposed to conventional interpretations of it This perspective requires that justice be seen as internal to the power human beings have to render things including themselves and their societies good The analysis of Plato s dramatic characterisation as well as the discussion of Socrates arguments is guided by the thought that they form aspects of a complex overall strategy through which Plato hopes to overcome the resistance of his contemporaries to the Socratic perspective on justice Moral Philosophy Anthony O'Hear, 2022-06-09 What is moral philosophy That is the question with which this important volume grapples Its starting point is the famous critique made in 1958 by Elizabeth Anscombe who argued that moral philosophy begins from a mistake that it is fundamentally wrong about the sort of concept that the word moral represents Anscombe rejected moral philosophy as it was then and mostly now still is practised She offered instead a blueprint for the task moral philosophers must embrace if they are to speak intelligibly to society about good and bad right and wrong duty and obligation The chapters in this book are inspired by Anscombe s classic text One of the most powerful voices here among many authoritative voices is that of Philippa Foot Anscombe s lifelong friend who asserts that any account of practical reason evacuated of an understanding of what human beings need to flourish is inadequate and must be rejected
