***THE
ACTIVE
SOCIETY***

A Theory of Societal and Political Processes

The active society, one that is master of itself, is an option the post-modern period holds. In this provocative study, which will be of special importance to sociologists and political scientists, Amitai Etzioni explores the conditions under which this option can be exercised.

Sociology, Capitalism, Critique Hartmut Rosa, Stephan Lessenich, Klaus Dörre, 2015-05-26 Three radical perspectives on the critique of capitalism For years the critique of capitalism was lost from public discourse the very word capitalism sounded like a throwback to another era Nothing could be further from the truth today In this new intellectual atmosphere Sociology Capitalism Critique is a contribution to the renewal of critical sociology founded on an empirically grounded diagnosis of society's ills The authors Germany's leading critical sociologists Klaus Dörre Stephan Lessenich and Hartmut Rosa share a conviction that ours is a pivotal period of renewal in which the collective endeavour of academics can amount to an act of intellectual resistance working to prevent any regressive development that might return us to neoliberal domination

The authors discuss key issues such as questions of accumulation and expropriation discipline and freedom and the powerful new concepts of activation and acceleration Their politically committed sociology which takes the side of the losers in the current crisis places society s future well being at the centre of their research Their collective approach to this project is a conscious effort to avoid co optation in the institutional practices of the academy These three differing but complementary perspectives serve as an insightful introduction to the contemporary themes of radical sociology in capitalism s post crisis phase
