Active Interview:

The Active Interview James A. Holstein, Jaber F. Gubrium, 1995-04-20 Interviews were once regarded as the pipeline through which information was transmitted from a passive subject to an omniscient researcher. However, the new active interview considers interviewers and interviewees as equal partners in constructing meaning around an interview. This interpretation changes a range of elements in the interview process from the way of conceiving a sample to the ways in which the interview may be conducted and the results analyzed. In this guide, the authors outline the differences between active and traditional interviews and give novice researchers clear guidelines on conducting a successful interview.

Qualitative Research David Silverman, 2004-05-25 Common themes in this volume include the centrality of the relationship between analytic perspectives and methodological issues, links between social science traditions and the need to expand the paradigm of qualitative research.

Active Interview Andrew D. Hathaway, 2020 Active interviewing is a qualitative research method that departs from standardized approaches in its level of reciprocal engagement between interview participants. The typical advice in standard interviewing is that interviewers strive to be dispassionate and neutral so as not to influence the answers to their questions. Instead, the active interviewer is encouraged to intentionally seek to provoke and shape responses to their questions as a full participant in narrative production. The active interviewer strives to stimulate respondents by introducing or suggesting competing narrative positions, different points of reference, and interpretive resources. In turn, the interviewee is encouraged to select from among the resources available a salient vocabulary for producing one's own narrative. Emphasizing cocreation of life stories and experiences, the diffusion of the method of

Qualitative Research in Sociology Amir Marvasti, 2004 Qualitative Research in Sociology offers a hands-on guide to doing qualitative research in sociology. It provides an introductory survey of the methodological and theoretical dimensions of qualitative research as practiced by those interested in the study of social life. Through a detailed yet concise explanation, the reader is shown how these methods work and how their outcomes may be interpreted. Practically focused throughout, the book also offers constructive advice for students analyzing and writing their research projects. The book has a flowing narrative and student-friendly structure which makes it accessible to and popular with students. It will be an invaluable resource for students and researchers helping them to undertake effective qualitative research in both sociology and courses in social research across the social sciences.

Postmodern Interviewing Jaber F. Gubrium, 2003-03-21 Interview roles are less clear than they once were and in some cases the roles are even exchanged to promote new opportunities for understanding the shape and evolution of selves and experience. Postmodern Interviewing offers readers an exploration of the postmodern interview, a conversation with diverse purposes in which the communicative format is constructed as much within the interview conversation as it stems from predesignated research interests. It provides cutting-edge discussions of emerging horizons featuring reflexivity, poetics, and power along

with discussions of new ways of gathering experiential knowledge Employing concepts from anthropology family studies history and sociology the contributors present the ambitious new directions in which the interview has gone such as How the interview process is refracted through the lens of language knowledge culture and difference How the dividing line between fact and fiction is blurred to promote richer understanding How standardized representation has given way to representational invention By exploring these exciting developments readers will be exposed to the engaging opportunities for understanding the shape and evolution of selves and social worlds that are made possible through changes in the interview process This volume is comprised of chapters from the Handbook of Interview Research Gubrium and Holstein SAGE 2001 The companion volume Inside Interviewing SAGE 2003 is also comprised of chapters from the Handbook

Aging in a Second Language Steven L. Arxer, Maria del Puy Ciriza, Marco Shappeck, 2017-05-30 This unique account of English language acquisition by Latino elders shines intimate light on the increasingly complex concerns of aging immigrant minority populations Rich qualitative findings detail sociocultural barriers to and social and emotive factors that promote second language acquisition in older age The book's case study highlights diverse cognitive and social processes as elders establish a sense of self as learners and as part of a learning community and a sense of place as newcomers navigating a challenging environment And first person comments from the group members deftly illustrate the intricacies of being an immigrant in a rapidly changing America as well as the myriad intersections of race ethnicity gender culture and country that shape immigrant life Included in the coverage Minority aging in an immigrant context Late life second language acquisition cognitive and psycholinguistic changes challenges and opportunities Building emotions for self identity and learning Practicing safe language socialization in private and public spaces Language resocialization and gender allies Aging second language acquisition and health Aging in a Second Language gives clinical social workers gerontologists health and cross cultural psychologists sociologists educators and other professionals deep insights into the lives of an emerging active elder population It also pinpoints challenges and opportunities in research literacy program design pedagogy clinical outreach education policy and service delivery to immigrant elders
