Japan International Monetary Fund,2012-08-01 The macroeconomic environment of Japan has constantly been under pressure owing to rising public debt and fiscal deficits Credit demand has been limited and has shown weak profitability Growing risks have heightened concerns about a possible feedback to financial stability This report summarizes the findings of the financial sector stability assessment of Japan The Executive Board recommends a broad based financial reform plan that could contribute to private sector growth Suggested measures included allocating market based credit to SMEs improving the framework for capital markets and consolidating and streamlining of regional banks Japan and China H. Hilpert,R. Haak,2002-05-02 The flow of goods capital technology and organisational know how between Japan and China has increased dramatically yet the relationship between the two countries remains far below its potential scope The differing economic structures of the two countries the mutual political distrust and the burden of an unsettled historical past stand in the way of a more intensive economic integration This book combines up to date research from the German Institute for Japanese Studies DIJ with papers from a conference organised jointly with the Fujitsu Research Institute FRI and is an essential tool for academics and those doing business in East Asia Japan David Murray,Kentaro baron Kaneko,1906
