Active Learning Creating Excitement In The Clabroom:

Active Learning Charles C. Bonwell, James A. Eison, 1991-02-14 This monograph examines the nature of active learning at the higher education level the empirical research on its use the common obstacles and barriers that give rise to faculty resistance and how faculty and staff can implement active learning techniques A preliminary section defines active learning and looks at the current climate surrounding the concept A second section entitled The Modified Lecture offers ways that teachers can incorporate active learning into their most frequently used format the lecture The following section on classroom discussion explains the conditions and techniques needed for the most useful type of exchange Other ways to promote active learning are also described including visual learning writing in class problem solving computer based instruction cooperative learning debates drama role playing simulations games and peer teaching A section on obstacles to implementing active learning techniques leads naturally to the final section Conclusions and Recommendations which outlines the roles that each group within the university can play in order to encourage the implementation of active learning strategies The text includes over 200 references and an index JB

Handbook of Research on Active Learning and Student Engagement in Higher Education Keengwe, Jared, 2022-06-10 Active learning occurs when a learning task can be related in a non arbitrary manner to what the learner already knows and when there is a personal recognition of the links between concepts The most important element of active learning is not so much in how information is presented but how new information is integrated into an existing knowledge base In order to successfully implement active learning into higher education its effect on student engagement must be studied and considered The Handbook of Research on Active Learning and Student Engagement in Higher Education focuses on assessing the effectiveness of active learning and constructivist teaching to promote student engagement and provides a wide range of strategies and frameworks to help educators and other practitioners examine the benefits challenges and opportunities for using active learning approaches to maximize student learning Covering topics such as online learning environments and engagement approaches this major reference work is ideal for academicians practitioners researchers librarians industry professionals educators and students

Student-Driven Learning Strategies for the 21st Century Classroom Alias, Nor Aziah, Luaran, Johan Eddy, 2016-11-09 The creation of a successful learning environment involves the examination and improvement upon current teaching practices As new strategies emerge it becomes imperative to incorporate them into the classroom Student Driven Learning Strategies for the 21st Century Classroom provides a thorough examination of the benefits and challenges experienced in learner driven educational settings and how to effectively engage students in these environments Focusing on technological perspectives emerging pedagogies and curriculum development this book is ideally designed for educators learning designers upper level students professionals and researchers interested in innovative approaches to student driven education

Cases on Active Blended Learning in Higher Education Padilla Rodriguez, Brenda Cecilia, Armellini, Alejandro, 2021-02-12 Active blended

learning ABL is a pedagogical approach that combines sensemaking activities with focused interactions in appropriate learning settings ABL has become a great learning tool as it is easily accessible online with digitally rich environments close peer and tutor interactions and accommodations per individual learner needs It encompasses a variety of concepts methods and techniques such as collaborative learning experiential learning problem based learning team based learning and flipped classrooms ABL is a tool used by educators to develop learner autonomy engaging students in knowledge construction reflection and critique In the current educational climate there is a strong case for the implementation of ABL Cases on Active Blended Learning in Higher Education explores strategies and methods to implement ABL in higher education It will provide insights into teaching practice by describing the experiences and reflections of academics from around the world The chapters analyze enablers barriers to engagement outcomes implications and recommendations to benefit from ABL in different contexts as well as associated concepts and models While highlighting topics such as personalized university courses remote service learning team based learning and universal design this book is ideal for in service and preservice teachers administrators instructional designers teacher educators practitioners researchers academicians and students interested in pedagogical approaches aligned to ABL and how this works in higher education institutions *Teaching What You Don't Know* Therese Huston,2009-08-31 In this practical and funny book an experienced teaching consultant offers many creative strategies for dealing with typical problems Original useful and hopeful this book reminds you that teaching what you don't know to students whom you may not understand is not just a job It's an adventure **Training Engineering Students for Modern Technological Advancement** Alves, Anabela Carvalho,van Hattum-Janssen, Natascha,2021-12-17 Engineering education leads the preparation of the next generation of engineers This is a difficult task as engineering practices rapidly evolve pressured by the technological advancements promoted by these same engineers Engineering schools are integrated into large and rigid higher education institutions HEI that are not known for their agility Nevertheless engineering educators must have the agility to go beyond HEI boundaries to close the gap between professional practice needs and engineering education *Training Engineering Students for Modern Technological Advancement* examines the role of engineering teachers in preparing the next generation of engineers and presents perspectives on active learning methods for engineering education As such it contributes to bypassing the compartmentalized way of course organization typical in many HEIs and prepares for more agile engineering education Covering topics such as game based teaching methods Industry 4.0 and management skills this book is a dynamic resource ideal for engineers engineering professors engineering students general educators engineering professionals academicians and researchers **Pharmacotherapy Casebook** Terry L. Schwinghammer,Julia M. Koehler,2011-08-05 More than 150 cases help you develop the problem solving and decision making skills necessary to succeed in real world clinical practice *Pharmacotherapy Casebook* provides the case studies you need to learn how to identify and resolve drug therapy problems you're most likely to encounter in real world practice This

new edition is packed with 157 patient cases and makes the ideal study companion to the eighth edition of DiPiro's *Pharmacotherapy: A Pathophysiologic Approach*. The case chapters in this book are organized into organ system sections that correspond to those of the DiPiro textbook. By reading the relevant chapters in *Pharmacotherapy: A Pathophysiologic Approach*, you will be able to familiarize yourself with the pathophysiology and pharmacology of each disease state included in this casebook. Everything you need to develop expertise in pharmacotherapy decision making. Realistic patient presentations include medical history, physical examination, and laboratory data, followed by a series of questions using a systematic problem-solving approach. Compelling range of cases from the uncomplicated, a single disease state to the complex, multiple disease states and drug-related problems. Diverse authorship from more than 190 clinicians from nearly 100 institutions. Coverage that integrates the biomedical and pharmaceutical sciences with therapeutics. Appendices containing valuable information on pharmacy abbreviations, laboratory tests, mathematical conversion factors, anthropometrics, and complementary and alternative therapies.

Resources in Education, 1992. Serves as an index to Eric reports, microform.

Lexicon of Online and Distance Learning, Lawrence A. Tomei, 2009-11-16. Lexicon of Online and Distance Learning, a desktop resource focuses specifically on distance education for researchers and practitioners. It provides key information about all levels of education that is K-12, higher education, proprietary education, and corporate training, allowing for comprehensive coverage of the discipline of distance education. The book offers a comprehensive index of distance learning terms, cross-references to synonyms, and when appropriate, online web links to encourage further exploration. Each lexicon entry is categorized by its root terminology: general education, technology, instructional technology, or distance education, and provides the actual definition and complete exploration of the term, along with specific references that include related books, volumes, and available manuscripts.

Further Education in the Balkan Countries, Volume 1, Ali Murat Sünbül, Özcan Demirel, 2009-01-15.

Active Learning Strategies for a Large Class, Robert O. Burton, 1999.

Designs for Active Learning, Gail Gradowski, Loanne Snavely, Paula Dempsey, 1998. This practical book for instruction librarians provides 54 active learning exercises useful for planning library instruction, ranging from one or more classroom instruction sessions to full semester library credit courses. Coverage includes exercises on basic library skills, online searching, resource evaluation, and discipline-oriented library instruction, all provided by practitioners in college and university libraries. Each exercise includes an introductory description, level of activity (e.g., basic, intermediate, advanced), time required, size of class, preparation needed, class instructions, and discussion with appropriate handouts. A 3.5 disk using Microsoft Word 6.0 accompanying the book contains the handouts, forms, and teaching aids illustrated in the book, so that the exercises are readily adapted for local use. The book includes an introductory essay on active learning in library instruction and a list of selected readings. The style is clear and easy to follow, providing instruction librarians with usable examples of how to incorporate active learning techniques to improve library instruction.

Science in the Elementary and Middle School, Donna M. Wolfinger, 2000.

Contains activities for students to investigate the various aspects of science Engaging Students in Distance Learning Thomas E. Cyr, 1999 To Improve the Academy Linda B. Nilson, Judith E. Miller, 2009-10-12 The development of students is a fundamental purpose of higher education and requires for its success effective advising teaching leadership and management Professional and Organizational Development Network in Higher Education POD fosters human development in higher education through faculty instructional and organizational development A smart mix of big picture themes national developments and examples of effective faculty development initiatives from a variety of schools To Improve the Academy offers examples and resources for the enrichment of all educational developers This annual volume incorporates all the latest need to know information for faculty developers and administrators **Using Student Evaluations to Increase Classroom Effectiveness** Pamela Flash, 1995 **Teaching at a Distance with the Merging Technologies** Thomas E. Cyr, 1997 This book is written for active practitioners teaching in distance learning environments utilizing any type of delivery format The intent of this book is the application of teaching skills or how to Includes where to locate important data an instructor's glossary and an index **The Powerful Potential of Learning Communities** Oscar T. Lenning, Larry H. Ebbers, 1999 This report examines the importance of learning communities within institutions of higher education It identifies two important dimensions of learning communities 1 primary membership which differentiates based on the characteristic that group members hold in common these include learning organizations faculty learning communities and student learning communities and 2 primary form of interaction which differentiates based on group members methods of interaction such as in person physical interaction virtual interaction or nondirect interaction through correspondence Four categories of student learning communities are identified curricular learning communities classroom learning communities residential learning communities and student type learning communities Benefits for students and faculty of effective learning communities are documented and include higher academic achievement better retention rates diminished faculty isolation and increased curricular integration Suggestions for maximizing learning in virtual communities include focusing on a common goal and organization that include preparation planning and reflection Contains approximately 225 references DB **Actionable Learning** Terrence Morrison, 2001 Enhancing Student Learning Patrick G. Love, Anne Goodsell Love, 1995-05-12 This report examines the necessity for holistic learning the integration of intellectual social and emotional aspects of learning at the undergraduate level It reviews and evaluates research findings theoretical models and the relationship and interdependency of these developmental areas An introductory chapter considers the increasing fragmentation of the learning process and defines the report's terminology The following chapter reviews the historical development of the separation of social and emotional processes from student learning and identifies current cultural barriers to their integration as well as facilitating conditions for integration The next two chapters review the research which demonstrates links among cognitive social emotional and intellectual processes in the context of liberation theory constructivist pedagogy

the critical cultural perspective and collaborative learning theory Individual issues in the links among intellectual social and emotional elements of learning are addressed including the need to expand the notion of learning and individual philosophy practice and transformation The final chapter urges educators and institutions to 1 provide visionary persistent and pervasive leadership 2 promote student involvement in learning 3 develop learning communities 4 enhance the educational climate of residence halls and 5 intentionally influence the socialization of faculty and student affairs professionals Contains approximately 250 references DB
