Actor His Audience

Victor M. Corman

Actor His Audience:

Actors and Audiences Caroline Heim, 2020-03-10 *Actors and Audiences* explores the exchanges between those on and off the stage that fill the atmosphere with energy and vitality Caroline Heim utilises the concept of electric air to describe this phenomenon and discuss the charge of emotional electricity that heightens the audience's senses in the theatre In order to understand this electric air Heim draws from in depth interviews with 79 professional audience members and 22 international stage and screen actors in the United Kingdom United States France and Germany Tapping into the growing interest in empirical studies of the audience this book documents experiences from three productions *The Encounter* *Heisenberg* and *Hunger* *Peer Gynt* to describe the nature of these conversations The interviews disclose essential elements transference identification projection double consciousness presence stage fright and the suspension of disbelief Ultimately Heim reveals that the heart of theatre is the relationship between those on and off stage the way in which emotions and words create psychological conversations that pass through the fourth wall into an in between space and the resulting electric air A fascinating introduction to a unique subject this book provides a close examination of actor and audience perspectives which is essential reading for students and academics of Theatre Performance and Audience Studies **A Film**

Actor's Technique James A. Baffico, 2012 A comprehensive step by step how to guide for the beginner movie actor

Acting Comedy Christopher Olsen, 2015-08-27 Despite being roundly cited as much harder to perform than its dramatic counterpart comic acting is traditionally seen as a performance genre that can't be taught At best it is often described as a skill that can only be learned on the job through years of practice or given to a performer through natural talent *Acting Comedy* is an effort to examine this idea more rigorously by looking at different aspects of the comic actor's craft Each chapter is written by an expert in a particular form from actors and directors to teachers and standup comedians Topics covered include how performers work with audiences how comic texts can be enhanced through word and musical rhythm analysis how physical movements can generate comic moments and build character This book is an invaluable resource for any performer focusing on the minute details of comic acting even down to exactly how one delivers a joke on stage Christopher Olsen's unique collection of comic voices will prove essential reading for students and professionals alike
