instance this role is played by a modified sympathy trait which is central to enabling these exemplars to be reliably correct judges of the compassionate thing to do in various practical situations Indeed according to Gopal Sreenivasan the virtue of compassion is in a sense a modified sympathy trait just as courage is a modified fear trait While he upholds the traditional definition of virtue as a species of character trait Sreenivasan discards other traditional precepts For example he rejects the unity of the virtues and raises new questions about when virtue should be taught Unlike orthodox virtue ethics moreover his account does not aspire to rival consequentialism and deontology Instead Sreenivasan repudiates the ambitions of virtue imperialism Emotion and Virtue makes significant contributions to moral psychology and the theory of virtue alike **The**
