## **Adalbert Stifter:**

A Companion to the Works of Adalbert Stifter Sean M. Ireton, 2025 Presents Stifter's multi-faceted oeuvre to both a German Studies and non-specialized Anglophone audience showing today's readers the relevance of its concerns. The canonical nineteenth-century Austrian writer Adalbert Stifter (1805-1868) long considered a staid stylist if not mannerist and a conservative bourgeois apologist has recently become the subject of more vibrant literary-theoretical approaches. While Stifter is primarily known for his fictional prose including two lengthy novels *Der Nachsommer* (Indian Summer) and *Witiko* and numerous novella-length narratives, he also wrote dozens of cultural, political, and scientific essays. Moreover, his professional activity in the Austrian school system and his diverse publications in the realm of pedagogy not only shed interpretive light on his literary production but also inform enduring debates on education reform and the intellectual-historical question of *Bildung*. This volume covers a wide range of texts and topics within Stifter's oeuvre. With respect to literary-historical coverage, it extends from his earliest tale *Der Condor* (The Condor, 1840) to his posthumously published chronicle *Aus dem bairischen Walde* (From the Bavarian Forest, 1868). In terms of genre, it embraces his novels and novellas, his essayistic work, and even his landscape paintings. Finally, it pursues a host of deeper problems and thematic strands that permeate his texts and make them relevant to readers today. These include neo-conservatism, social unrest, law and order, ecology, climatology, bioregionalism, and the Anthropocene.

The Bachelors Adalbert Stifter, 2008-03-25 Leaving the home of his foster mother to begin his working life, young Victor stops to visit his uncle who long ago sealed himself away from the world on an island in a lake high in the Austrian Alps. The old man who has never known love lives barricaded in a former monastery surrounded by an atmosphere of death and decay. Portraying the friction between these two characters with keen psychological insight, Stifter's masterful Bildungsroman explores conflicting attitudes to life and their existential effects: stillness and movement, light and dark, openness and withdrawal.

Rock Crystal Adalbert Stifter, 2015-12-15 Seemingly the simplest of stories, a passing anecdote of village life, *Rock Crystal* opens up into a tale of almost unendurable suspense. This jewel-like novella, by the writer that Thomas Mann praised as one of the most extraordinary, the most enigmatic, the most secretly daring, and the most strangely gripping narrators in world literature, is among the most unusual, moving, and memorable of Christmas stories. Two children, Conrad and his little sister Sanna, set out from their village high up in the Alps to visit their grandparents in the neighboring valley. It is the day before Christmas, but the weather is mild. Though of course, night falls early in December, and the children are warned not to linger. The grandparents welcome the children with presents and pack them off with kisses. Then snow begins to fall ever more thickly and steadily. Undaunted, the children press on only to take a wrong turn. The snow rises higher and higher, time passes, it is deep night when the sky clears, and Conrad and Sanna discover themselves out on a glacier, terrifying and beautiful, the heart of the void. Adalbert Stifter's rapt and enigmatic tale, beautifully translated by Elizabeth Mayer and Marianne Moore, explores what can be found between Christmas Eve and

Stifter as a forerunner of twentieth century modernism Adalbert Stifter has always been viewed as a natural heir to the Great Classical tradition even by those critics who detect disturbing subtexts in his fiction But he should be viewed quite differently however well disguised he is in truth a closet modernist and a major trailblazer for Kafka and the Absurd This is most evident in his late fiction which has been almost universally ignored dismissed or disparaged by his critics His last novel *Witiko* in particular has been conspicuously neglected by both nineteenth and twentieth century critics Ragg Kirkby demonstrates largely by way of close reading that this is Stifter's extreme masterpiece Beneath the surface of Biedermeier stuffiness is a vision of fracture emptiness meaninglessness and mania not only more radical than that of any other 19th century author but arguably more radical than that of any 20th century author precisely because there is such a disjuncture between text and sub text In his final novel Stifter simply leaves the future behind Helena Ragg Kirkby is a lecturer in German at the University of Sheffield

Adalbert Stifter Jordan Kajetan Markus,1879 Adalbert Stifter Werke,1978 Cosmos and Republic Wolfgang R. Heuer,2023-08-22 In 20 essays inspired by Hannah Arendt's analysis of crisis ridden modernity Wolfgang R Heuer addresses aspects of depoliticization and the loss of politics and thus of freedom The wide ranging essays are grouped in five sections When Politics Vanishes The Call of Responsibility Images and Emotions Federations and From Plurality to Cosmos They lead to the insight that the crises of our time require a common change of perspective towards ecological and political sustainability the unity of Cosmos and Republic

**Briefe an Adalbert Stifter** Reinhold Aumaier,1982 Motley Stones Adalbert Stifter,2021-05-04 The first complete English translation of the nineteenth century Austrian innovator's evocative elemental cycle of novellas For Kafka he was my fat brother Thomas Mann called him one of the most peculiar enigmatic secretly audacious and strangely gripping storytellers in world literature Often misunderstood as an idyllic poet of beetles and buttercups the nineteenth century Austrian writer Adalbert Stifter can now be seen as a radical experimenter with narrative and a forerunner of nature writing's darker currents One of his best known works the novella cycle *Motley Stones* now appears in its first complete English translation a rendition that respects the bracing strangeness of the original In six thematically linked novellas including the beloved classic *Rock Crystal* human dramas play out amid the natural cycles of the Alps or the urban rhythms of Vienna environments so keenly observed that they emerge as the tales most indomitable protagonists Stifter's human characters are equally haunting children braving perils eccentrics and loners harboring enigmatic torments We seek to glimpse the gentle law that guides the human race Stifter famously wrote What he glimpsed more often than not was the abyss that lies behind the idyll The tension between his humane sensitivity and his dark visions is what lends his writing its heartbreaking power

*The Waiting Water* Alexander Sorenson,2024-09-15 *The Waiting Water* addresses one of the most recurrent and troubling motifs in German Realist literature death by drowning Characters find themselves before bodies of water presented with the familiar realm above the surface and the unobservable uncanny domain beneath it With somber regularity they then disappear into the depths Alexander Sorenson explores the role

that these hidden deaths in water play within a literary movement that set out precisely to reveal universal truths about human life The poetics of submergence he argues revolve around two concepts fundamental to Poetic Realism order and sacrifice Focusing on texts by Adalbert Stifter Gottfried Keller Marie von Ebner Eschenbach and Theodor Storm along with material from earlier and later epochs The Waiting Water shows that the pervasive symbolism of drowning scenes in German Realism which typically occur in zones of narrative invisibility on the social periphery reveals the extent to which realist narrative uses the natural environment to work through deeply embedded and hidden tensions that troubled the social and moral life of the age

*Market Strategies and German Literature in the Long Nineteenth Century* Vance Byrd, Ervin Malakaj, 2020-01-20 Building upon recent German Studies research addressing the industrialization of printing the expansion of publication venues new publication formats and readership *Market Strategies* maps a networked literary field in which the production promotion and reception of literature from the Enlightenment to World War II emerges as a collaborative enterprise driven by the interests of actors and institutions These essays demonstrate how a network of authors editors and publishers devised mutually beneficial and at times conflicting strategies for achieving success on the rapidly evolving nineteenth century German literary market In particular the contributors consider how these actors shaped a nineteenth century literary market which included the Jewish press highbrow and lowbrow genres and modernist publications They explore the tensions felt as markets expanded and restrictions were imposed which yielded resilient new publication strategies fostered criticism and led to formal innovations The volume thus serves as major contribution to interdisciplinary research in nineteenth century German literary media and cultural studies
