Adam To Abraham:

From Adam to Abraham Thomas Lee Mobley, 2015-06-05 This book is an examination of the first twenty five chapters of The Book Of Genesis from the King James Version of the Holy Scriptures God which is a combination of Personalities One of which is Yahweh created all things in what is today called the Big Bang At that split second all energy and matter were created God called it into existence and at that instant ninety five percent of all matter went into other dimensions or vibrations The result is that we humans can only see or touch five percent of universal matter All stars planets and living things were created at this second Only the Angels of God were in existence at the time of the big bang They were all happy except for one This angels name was Lucifer One of the things created by The Personalities of God were a host of spirit beings which would inhabit human bodies at the time of conception The first human was called Adam by Yahweh and the second one was called Eve Between the two of them they were to begin the process of making children They were to live forever on Earth in human form They would not age not grow sick and die and Eve would have her children without any pain or effort They were given two commands One was to have many children and the other was to not eat the fruit of a certain tree We all know this was a test and to break this command would mean they would die before the billion year day they were living in at the time of the violation was over Lucifer was put in charge of Earth and the humans He immediately set about to ruin Gods plan The result was that Adam and Eve and all people on earth would die And they did God set in motion a plan to save all mankind by means of person in the future He told this to Eve and Lucifer heard it also This is the story of the Messianic Lineage that started with Adam and Eve and carried forward even after the great worldwide deluge to a man named Abraham and his wife named Sarah All mankind began with a life span where a day equaled a thousand years The life span changed at the time Noah entered the ark with his family to a day equaling one hundred and twenty years It was changed again when Abraham and Sarah had a son named Isaac to our modern life span Which is less than two hundred years This is their story as I the author of this book see it The First 2,000 Years W. Cleon Skousen, Much about the early history of mankind had become entirely lost until the restoration of the gospel These details about the first 2 000 years of human history are all to be found in this exciting volume We now know that Adam and Eve had two generations of children before Cain and Abel were born The exact year of the Great Flood can now be calculated Details about the golden age of Enoch are now available so that we can understand how the law of consecration works and how it eliminates poverty and crime One of the most magnificent stories in this book is the life of Abraham He received revelations about astronomy and mathematics which he later taught the Egyptians He was a remarkable example of faith and obedience even in offering his own son as a sacrifice to the God he loved All of these tremendously important new revelations belong to the sweeping panorama of the first 2 000 years of human history This book is designed to make the study of the Old Testament an inspirational pleasure Although presented for easy reading the text is carefully documented so that every important point can

be correlated with appropriate passages in the scriptures The extensive use of maps charts and illustrations also facilitate the rapid unfolding of the Biblical story This eBook includes the original index footnotes table of contents and page numbering from the printed format

Adam to Abraham Thomas Coley Allen,1998-01-01 **Historical Genesis** Richard James Fischer,2008-01-28 The beginning chapters of Genesis come alive with characters places and events almost totally unknown outside of the Bible itself except when illuminated by the fascinating history of the ancient Near East Did a man we call Adam actually exist Was someone known to us as Noah warned of a cataclysmic flood and instructed to build an ark Could the Tower of Babel incident actually have happened When archaeological artifacts and literature began to surface from ancient Mesopotamia present day Iraq nearly 200 years ago only a handful of archaeologists dared to point out that there appeared to be a close relationship between Genesis and the ruminations of the Sumerians and Akkadians who once lived there Often enduring great personal hardships these archaeological pioneers produced copious translations and marvelous insights Cuneiform texts compiled from almost two centuries of exploration have added significantly to our understanding of the historical underpinnings of the Old Testament The reader will gain a new appreciation for the historical integrity of Genesis 2 11 and marvel at the evidence that the persons places and events depicted though long misunderstood could be real Please visit Richard J Fisher s web site at <http://www.historicalgenesis.com>

The King-Priest in Samuel Nicholas Majors,2023-05-23 Scholars studying the ANE have noticed that Canaanite kings ruled as a representative of their god and served in a priestly role Yahweh allows Israel to have a king like all the nations Deut 17 14 but he shapes the monarchy according to his covenant A key question remains does God s allowance for a king like all the nations include a king priest model This study presents a synchronic view of the king as a priest within the MT of Samuel analyzing the motif and considering how the narrator heightens the hope for the coming anointed one whom the narrator describes as both king 1 Sam 2 10 and priest 2 35 36 This study will argue that from the monarchy s inception Yahweh considered Israel s kingship a sacral task My study examined the king as a priest through a synchronic literary theological approach *The "Summa*
