Rite out of Place Ronald L. Grimes, 2006-08-10 Much ritual studies scholarship still focuses on central religious rites For this reason Grimes argues dominant theories like the data they consider remain stubbornly conservative This book issues a challenge to these theories and to popular conceptions of ritual Rite Out of Place collects 10 revised essays originally published in widely varied sources across the past five years Grimes has selected for inclusion those essays that track ritual as it haunts the edges of cultural boundaries ritual converging with theater ritual on television ritual at the edge of natural environments and so on The writing is non technical and the implied audience is sufficiently broad than any educated person interested in religion and public life should find it intelligible and engaging

Transcendental Medication Christopher D. Lynn, 2022-04-28 Transcendental Medication considers why human brains evolved to have consciousness yet we spend much of our time trying to reduce our awareness It outlines how limiting consciousness rather than expanding it is more functional and satisfying for most people most of the time The suggestion is that our brains evolved mechanisms to deal with the stress

of awareness in concert with awareness itself otherwise it is too costly to handle Defining dissociation as partitioning of awareness Lynn touches on disparate cultural and psychological practices such as religion drug use 12 step programs and dancing The chapters draw on biological and cultural studies of Pentecostal speaking in tongues and stress the results of our 800 000 years watching hearth and campfires and unconscious uses of self deception as mating strategy Written in a highly engaging style Transcendental Medication will appeal to students and scholars interested in mind altered states of consciousness and evolution It is particularly suitable for those approaching the issue from cultural biological psychological and cognitive anthropology as well as evolutionary psychology cognitive neuroscience and religious studies *Journal of the Anthropological Society of Oxford* Anthropological Society of Oxford, Oxford University Anthropological Society, 1977
