**Biomedical Scientists and Public Policy** H. H. Fudenberg, 2012-12-06 This volume brings together the views of authors involved in many aspects of biomedicine from research on basic biology to clinical investigation of the causes and treatment of human disease to hospital administration to health care planning on the state and Federal levels to Congressional legislation covering biomedical research medical education the development of medical technology and the delivery of health care The purpose is not to present a party line representing a consensus of these often divergent viewpoints and we do not suggest that we have found solutions to the many problems encountered in the interaction of scientists administrators legislators and the recipients of health care These articles are intended primarily to

communicate to both biomedical scientists and intelligent laymen the processes social and political as well as scientific whereby biomedical science advances and the need for biomedical scientists to take an interest and initiative not only in scientific research but also in research on health care delivery and in related public issues before the legislative and administrative branches of government

**Morality Policies in Europe** Christoph Knill, 2017-07-05 The regulation of issues like abortion euthanasia gun control same sex unions pornography prostitution drugs or gambling is commonly referred to a special class of so called morality policies The distinctive feature of these policies is that politics are shaped by conflicts over first principle When does life end When does it begin Is gambling drug consumption or prostitution inherently malignant The regulation of these value conflicts entails decisions about right or wrong and hence the validation of a particular set of basic values Yet there is still a remarkable lack of scholarly attention on morality policies in particular with regard to general implications for the study of public policy To stimulate further research in this area this book focuses on different concepts and theories of morality policy change in European countries It is based on a broad and comparative empirical perspective on different morality issues including for instance the regulation of prostitution abortion euthanasia gambling drugs as well as gun controls This book was published as a special issue of the Journal of European Public Policy

Biomedical Policy and Mental Health Donna R. Kemp, 1994-10-30 This study presents an overview of the relationship between biomedical policy and mental health It explores a broad array of biomedical research and technology issues which impact mental health policy and it examines how the very conduct of biomedical research and the use of its technology have implications for the mental health of people Synthesizing mental health history law policy and treatment Donna Kemp highlights mental health and reproductive technology and research prevention issues identification of and intervention in cases of mental disability and drug treatment and experimentation issues
