Bird Flu Everything You Need Know:

Everything You Need to Know about Bird Flu Jo Revill, 2005 Humans have no natural immunity to bird flu Its symptoms are severe and can lead to death within five to six days While so far all victims have caught the virus directly from infected birds many scientists fear that it is just a matter of time before the virus mutates and begins to spread from human to human leading to a pandemic that could kill up to 40 million people around the world Cutting through the deluge of news stories about bird flu this definitive guide explains how the bird flu virus works the harm that it has already caused in Asia why it will be so deadly if it begins to spread between humans and what has been done so far to protect communities from the threat not enough many scientists fear It will look at the antiviral drugs which offer us short term protection but also investigate why we have done so little to invest in vaccine development In addition to giving the background story of the bird flu pandemic the book is full of practical information on what people can do to protect themselves including advice from experts on how to boost the immune system and procedures to follow if the pandemic arrives Everyone needs to know as much as they can abo

Bird Flu Marc Siegel, 2008-05-02 Marc Siegel is an articulate voice of reason in a world beset by hype and hysteria We would be well advised to listen closely to what he has to say Jerome Groopman M D staff writer the New Yorker Siegel cuts through the hype about the deadly this and the lethal that and applies reason in seeking the answers John M Barry author of *The Great Influenza The Epic Story of the Deadliest Plague in History* Timely and needed At such times we need soothsayers and explicators to redirect the ready fire aim mindset Siegel s book fulfills this role well The Journal of the American Medical Association As bird flu sweeps through Asia the rest of the world has begun to worry that it might spread west and start infecting humans As many experts have pointed out an influenza pandemic is only a matter of time and that time could be now Or is it In *Bird Flu* Dr Marc Siegel cuts through the hype the facts the fears and the realities to explain what has the experts so worried and why there s still plenty of reason to be calm Among the questions he answers are What is bird flu and who has it What can I do to protect my family Should I stockpile Tamiflu Will this be like the deadly Spanish flu of 1918 Why is there no bird flu vaccine Will the annual flu shot protect me In his sensible and entertaining style Siegel looks at the advances we ve made in treatments the research still to be done and the challenges ahead for Asia to lay out a realistic plan for ending this global threat While a bird flu outbreak in the United States may or may not happen this year there s still a great deal of work to be done in readying America for outbreaks of any kind

Avian Influenza, or "Bird Flu": What You Need to Know, 2006 Looks at the H5N1 strain of bird flu and how it is effecting the world bird population and what its potential impact will be on the world human population should it become easily transmittable *The Bird-Flu Primer* Larry Altshuler, 2006-03 Many people believe that the outbreak of a bird flu pandemic is an end of the world scenario While it will be devastating to the economy and society most experts agree that if a bird flu pandemic does occur it will last between 12 and 18 months before petering out What you do to prepare for and during that outbreak will determine
