## **Apartheid Our Picture:**

**Mandela's Kinsmen** Timothy Gibbs, 2014 *Mandela's Kinsmen* is the first study of the fraught relationships between the ANC leadership and their relatives who ruled apartheid's foremost tribal Bantustan the Transkei. In the early 20th century the chieftaincies had often been well springs of political leadership. In the Transkei political leaders such as Mandela used regionally rooted clan schooling and professional connections to vault to leadership they crafted expansive nationalisms woven from these kin identities. But from 1963 the apartheid government turned South Africa's chieftaincies into self governing tribal Bantustans in order to shatter African nationalism. While historians often suggest that apartheid changed everything African elites being eclipsed by an era of mass township and trade union protest and the chieftaincies co-opted by the apartheid government there is another side to this story. Drawing on newly discovered accounts and archives Gibbs reassesses the Bantustans and the changing politics of chieftaincy showing how local dissent within Transkei connected to wider political movements and ideologies. Emphasizing the importance of elite politics he describes how the ANC in exile attempted to re-enter South Africa through the Bantustans drawing on kin networks. This failed in KwaZulu but Transkei provided vital support after a coup in 1987 and the alliances forged were important during the apartheid endgame. Finally in counterpoint to Africanist debates that focus on how South African insurgencies narrowed nationalist thought and practice he maintains ANC leaders calmed South Africa's conflicts of the early 1990s by espousing an inclusive nationalism that incorporated local identities and that Mandela's kinsmen still play a key role in state politics today. The author uses a rich mix of novels short stories literary realism human rights and

comparative literature to explore the experiences of African migrants and asylum seekers The book is divided into two Part one is conceptual and focuses on art activism and the myriad ways in which people have sought to write justice Using Mazrui's diasporas of slavery and colonialism it then considers histories of migration across the centuries before honing in on the recent anti migration policies of western states Achiume is used to show how these histories of imposition and exploitation create a bond which bestows on Africans a status as co sovereigns of the First World through citizenship The many fictional examples of the schemes used to gain entry are set against the formal legal processes Attention is paid to life post arrival which for asylum seekers may include periods in detention The impact of the increased hostility of receiving states is examined in light of their human rights obligations Consideration is paid to how Africans navigate their post migration lives which includes reconciling themselves to status fracture taking on jobs for which they are over qualified while simultaneously dealing with the resentment borne of status threat on the part of the citizenry Part two moves from the general to consider the intersections of gender and status focusing on women LGBTI individuals and children Focusing on their human rights and the fictional literature chapter four looks at women who have been trafficked as well as domestic workers and hotel maids while chapter five is on LGBTI people whose legal and literary stories are only now being told The final substantive chapter considers the experiences of children who may arrive as unaccompanied minors Using a mixture of poetry and first person accounts the chapter examines the post arrival lives of children some of whom may be citizens but who are continually made to feel like outsiders The conclusion follows starting with two stories about walls by Hadero and Lanchester which are used to illustrate the themes discussed in the book Few African lawyers write about literature and few books and articles in Western law and literature look at books by or about Africans so a book that engages with both is long overdue This book provides fascinating reading for academics students of law literature gender and migration studies and indeed the general public
