Apes Of New York:

The Apes of New York Lionel Tiger, 2003 A collection of lively addictive and provocative essays *Ape* John Sorenson, 2009-10-15 Apes to look at them is to see a mirror of ourselves Our close genetic relatives fascinate and unnerve us with their similar behavior and social personality Here John Sorenson delves into our conflicted relationship to the great apes which often reveal Speaking of Apes Thomas A. Sebeok, Jean Umiker-Sebeok, 2013-03-09 *'Language' and Intelligence in Monkeys and Apes* Sue Taylor Parker, Kathleen Rita Gibson, 1994-01-28 This is the first collection of articles completely and explicitly devoted to the new field of comparative developmental evolutionary psychology that is to studies of primate abilities based on frameworks drawn from developmental psychology and evolutionary biology These frameworks include Piagetian and neo Piagetian models as well as psycholinguistic ones The articles in this collection originating in Japan Spain Italy France Canada and the United States represent a variety of backgrounds in human and nonhuman primate research including psycholinguistics developmental psychology cultural and physical anthropology ethology and comparative psychology The book focuses on such areas as the nature of culture intelligence language and imitation the differences among species in mental abilities and developmental patterns and the evolution of life histories and of mental abilities and their neurological bases The species studied include the African grey parrot cebus and macaque monkeys gorillas orangutans and both common and pygmy chimpanzees **The Neglected Ape** Biruté M.F. Galdikas, R.D. Nadler, N. Rosen, Lori K. Sheeran, 2013-11-11 The orangutan is the most highly endangered species of great ape Orangutans are threatened by deforestation poaching the illegal pet trade and the isolation and fragmentation of dwindling wild populations Their conservation is impeded by certain aspects of their ecology e.g. a rain forest habitat and certain features of their life history e.g. an eight to twelve year interbirth interval Added to the U.S. Endangered Species List in 1970 the orangutan is now clearly on the road to extinction The number of wild orangutans in Borneo and Sumatra is currently estimated to have decreased to between 12 300 and 20 571 individuals Only 2% of original orangutan habitat is protected and some of these areas are now being destroyed Clearly attention to ecology demography censusing rehabilitation and conservation is essential if the orangutan is to survive in the wild beyond the next century The protection of orangutans is a complex multifaceted problem involving such pressing issues as human poverty overpopulation and the economic development of Southeast Asia Although the orangutan has been placed in Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora CITES more orangutans were sold illegally in Taiwan between 1990 and 1993 than are housed in all the world's zoos In the past scientific and public attention has centered on the African apes For this reason the sole Asian great ape the orangutan has been called the neglected ape *Catalogue* C.F. Libbie & Co, 1925 Walking with the Great Apes Sy Montgomery, 2009-08-25 From the personal to the primate Sy Montgomery acclaimed author of *The Soul of an Octopus* and *The Good Good Pig* explores the science wisdom and living experience of three of the greatest scientists of the twentieth

century Three astounding women scientists have in recent years penetrated the jungles of Africa and Borneo to observe nurture and defend humanity's closest cousins Jane Goodall has worked with the chimpanzees of Gombe for nearly 50 years Diane Fossey died in 1985 defending the mountain gorillas of Rwanda and Birut Galdikas lives in intimate proximity to the orangutans of Borneo All three began their work as protégés of the great Anglo African archeologist Louis Leakey and each spent years in the field allowing the apes to become their familiars and ultimately waging battles to save them from extinction in the wild Their combined accomplishments have been mind blowing as Goodall Fossey and Galdikas forever changed how we think of our closest evolutionary relatives of ourselves and of how to conduct good science

The Apes Vernon Reynolds,1971 *Catalogue* Cambridge Public Library (Cambridge, Mass.),1875 *The Cognitive Animal* Marc Bekoff,Colin Allen,Gordon M. Burghardt,2002-06-21 The fifty seven original essays in this book provide a comprehensive overview of the interdisciplinary field of animal cognition The contributors include cognitive ethologists behavioral ecologists experimental and developmental psychologists behaviorists philosophers neuroscientists computer scientists and modelers field biologists and others The diversity of approaches is both philosophical and methodological with contributors demonstrating various degrees of acceptance or disdain for such terms as consciousness and varying degrees of concern for laboratory experimentation versus naturalistic research In addition to primates particularly the nonhuman great apes the animals discussed include antelopes bees dogs dolphins earthworms fish hyenas parrots prairie dogs rats ravens sea lions snakes spiders and squirrels The topics include but are not limited to definitions of cognition the role of anecdotes in the study of animal cognition anthropomorphism attention perception learning memory thinking consciousness intentionality communication planning play aggression dominance predation recognition assessment of self and others social knowledge empathy conflict resolution reproduction parent young interactions and caregiving ecology evolution kin selection and neuroethology

Reports Newburyport Public Library,1873 **The Great Apes** Robert Mearns Yerkes,Ada Watterson Yerkes,1929 *Scientific American* ,1925 **Speaking of Apes** Thomas Albert Sebeok,Donna Jean Umiker-Sebeok,1980-05 **More Books** Boston Public Library,1928 Issues consist of lists of new books added to the library also articles about aspects of printing and publishing history and about exhibitions held in the library and important acquisitions

Annual Report of the Ohio State Library Ohio State Library,1877 **Executive Documents** Ohio,1878 **Report of the Commissioners of the Ohio State Library** Ohio State Library,1871 **The Journal of Comparative Neurology** ,1896 **Monkeys and Apes** Gotthart Berger,1985 Describes the habits behavior stages of development and other interesting aspects of the many varieties of primates which range from still primitive species to the highly developed great apes
