Anxious Object Art Today Its Audience:

The Anxious Object Harold Rosenberg, 1965 *The Anxious Object* Brenda Jackson, Penguin Books Staff, Ronald L. McDonald, 1969-02-01 When the Machine Made Art Grant D. Taylor, 2014-04-10 Considering how culturally indispensable digital technology is today it is ironic that computer generated art was attacked when it burst onto the scene in the early 1960s In fact no other twentieth century art form has elicited such a negative and hostile response When the Machine Made Art examines the cultural and critical response to computer art or what we refer to today as digital art Tracing the heated debates between art and science the societal anxiety over nascent computer technology and the myths and philosophies surrounding digital computation Taylor is able to identify the destabilizing forces that shape and eventually fragment the computer art movement Design Discourse Victor Margolin, 1989-09-15 The editor has gathered together a body of writing in the emerging field of design studies The contributors argue in different ways for a rethinking of design in the light of its cultural significance and its powerful position in today's society The collection begins with a discussion of the various expressions of opposition to the modernists purist approach toward design Drawing on postmodernist theory and other critical strategies the writers examine the relations among design technology and social organization to show how design has become a complex and multidisciplinary activity The second section provides examples of new methods of interpreting and analysing design ranging from rhetoric and semiotics to phenomenology demonstrating how meaning is created visually A final section related to design history shifts its emphasis to ideological frameworks such as capitalism and patriarchy that establish boundaries for the production and use of design Art/Commerce Maria A. Slowinska, 2014-09-15 This book offers a compelling perspective on the striking similarity of art and commerce in contemporary culture Combining the history and theory of art with theories of contemporary culture and marketing Maria A Slowinska chooses three angles space object experience persona to bridge present and past aesthetic appearance and theoretical discourse and traditional divisions between art and commerce Beyond both pessimistic and celebratory rhetorics Art Commerce illuminates contemporary phenomena in which the aestheticization of commerce and the commercialization of aesthetics converge **New Deal Modernism** Michael Szalay, 2000-12-29 Argues that the writers of the 30s and 40s Hemingway Ayn Rand John Dos Passos Gertrude Stein Richard Wright Wallace Stevens et al identified and understood the formal problems of literary modernism through an idea of the social and an idiom of s Catalog of the Library of the Museum of Modern Art: A Museum of Modern Art (New York, N.Y.).
