Apollo 13 To The Edge And Back:

Apollo 13 ,2004 **Apollo 13** Laura B. Edge,2020-03-03 Houston we ve had a problem On April 13 1970 the three astronauts aboard the Apollo 13 spacecraft were headed to the moon when a sudden explosion rocked the ship Oxygen levels began depleting rapidly Electrical power began to fail Astronauts James Lovell Jack Swigert and Fred Haise were about to be stranded in the inky void of outer space The mission to the moon was scrapped Now Apollo 13 s only goal was to bring the crew home With the damaged spacecraft hurtling towards the moon at roughly six thousand miles per hour there was little hope of success But the astronauts and mission control were fully prepared to do whatever it took to return the crew to Earth This space disaster occurred at the peak of the United States Space Race against the Soviet Union But for four days in 1970 the two nations put aside their differences and the entire world watched the skies hoping and praying the astronauts would return safely As missions to Mars and commercial space flight become a reality the time is now to be reminded of our common humanity of how rivals can work together and support each other towards a shared goal Because no matter what happens or where we travel we all call Earth home **Apollo 13** Noel Buckner,2009 *TV Guide* ,1994 **The Video Librarian** ,2004 *Patterns* ,1994 **Leading from the Edge** James Hilton,2016-02-25 A guide to recognising managing overcoming and surviving the work related stress suffered by so many teachers and school leaders working in schools today This unique honest provocative and humorous analysis of the challenges of leading a 21st century school is filled with scenarios and strategies guaranteed to inspire reassure and help leaders overcome the pressures on them In addition to helping school leaders recognise and manage stress in themselves the book covers how to help and support members of staff to manage stress levels and the pressures of their job School staff suffering from and not being able to manage high levels of stress is a huge barrier to school improvement as well as successful sustainable educational leadership Stress in schools is on the increase as teachers and leaders have higher imposed targets than ever before and feel like they have less support A recent report stated that two fifths of teachers are leaving the profession within five years of starting and teachers taking leave due to stress is also on the increase it was reportedly up 10% over the last 4 years in 2012 and on the increase Stress in the teaching profession has often gone untalked about and headteachers especially feel unable to talk about it openly however it is very prevalent in the news at the moment especially since the head of Ofsted Sir Michael Wilshaw caused outrage when he said that teachers do not know what stress is **Leading From the Edge** is unique because it looks at work related stress from a school leader s personal experience James Hilton worked as a headteacher for 15 years in large schools Following a nervous breakdown brought on by work related stress in 2006 and after a significant period of absence he returned to headship more self aware than before Chris Roome the mental health therapist who taught him many of the positive strategies he learned in his recovery will act as a consultant on the book adding significant credibility to the work Each chapter will conclude with learning points and a wealth of practical self help strategies Foreword by Richard Gerver
