AIDS in Africa Nana Poku,2005 Across Africa HIV AIDS is slowly killing millions of people in the prime of their lives weakening state structures deepening poverty and reversing the gains in life expectancy achieved over the past century Although many who study the dynamics of Africas AIDS crisis accept that to some degree its entrenchment is a socially produced phenomenon few have examined how the course and intensity of the epidemic have been affected by the continents ubiquitous poverty the impact of the pervasive structural adjustment programmes or Africas marginalization in the process of globalization until now This book explores the socio economic context of Africas vulnerability to HIV AIDS as well as assessing the politics of domestic and global response Using primary and secondary data it charts the power relations driving Africas HIV AIDS epidemic frustrating the possibility of alleviation and recovery as well as working to relegate the continent to a bleak and vulnerable future In this sense the book marks a radical departure by providing a comprehensive analysis of Africas vulnerability to AIDS and the challenges confronting policy makers as they seek to reverse its escalating prevalence on the continent AIDS in Africa is an immensely valuable introduction to the greatest pandemic facing the world today
