The Forest People

- **New York Times Bestseller**
"The *Journal of Anthropological Research* of Colin Turnbull has alerted us to the Pygmy people, and his ability to write sensitively, yet with a full sense of what a Pygmy culture like theirs must be like, is a reward of a depth for several generations, told with some real technical exactness."
- **International Bestseller**
"It would be hard to find a more important theme. During his time with these people, he was able to get with them, understand and to some extent help."
- **International Bestseller**
"The *Forest People* is a masterpiece of great humanity, in that the reader is made aware of the culture and way of life of the primitive, almost forgotten, and unexplored, of a culture which has been almost completely forgotten."
- **London Times Bestseller**
"Turnbull's book is a masterpiece of humanity and understanding of another people. It is a masterpiece of the human spirit, and a masterpiece of the human mind. It is a masterpiece of the human spirit and a masterpiece of the human mind."
- **The New York Times Bestseller**
"Although the book is not a study of the history of life in the Pygmy world, it is a study of the human mind, and that is what makes it a masterpiece of the human mind."
- **The New York Times Bestseller**

Black Consciousness and South Africa's National Literature Tom Penfold, 2017-10-14 This book analyses Black Consciousness poetry and theatre from the 1970s through to the present South Africa s literature like its history has been beset by disagreement and contradiction and has been consistently difficult to pin down as one united entity Much existing criticism on South Africa s national literature has attempted to overcome these divisions by discussing material written from a variety of different subject positions together This book argues that Black Consciousness desired a new South Africa where African and European cultures were valued equally and writers could represent both as they wished Thus a body of literature was created that addressed a range of audiences and imagined the South African nation in different ways This book explores Black Consciousness in order to demonstrate how South African writers have responded in various ways to the changing history and politics of their country

African Appropriations Matthias Krings, 2015-07-20 This exploration of African adaptations of global pop culture is a genuinely innovative book unlike most others in either anthropology or African studies American Ethnologist Why would a Hollywood film become a Nigerian video remake a Tanzanian comic book or a Congolese music video Matthias Krings explores the myriad ways Africans respond to the relentless onslaught of global culture He seeks out places where they have adapted pervasive cultural forms to their own purposes as photo novels comic books songs posters and even scam letters These African appropriations reveal the broad scope of cultural mediation that is characteristic

of our hyperlinked age Krings argues that there is no longer an original or faithful copy but only endless transformations that thrive in the fertile ground of African popular culture The text is jargon free a pleasure to read remarkably well researched and enriched by 40 illustrations Highly recommended Choice
