**African Islands and Enclaves** Robin Cohen, 2024-07-05 Small territories and islands are significant flashpoints in the contemporary world order They are both exposed to the vicissitudes of international power rivalries and can find it difficult to sustain a stable internal political and economic order Originally published in 1983 this book provides a balance between enclaves and islands between Indian and Atlantic Ocean territories and between territories that were self governing and those that were still integrated into metropolitan political units Each of the authors shares a close familiarity with the territories they surveyed one that goes into a direct and sometimes brutal appreciation of the difficulties and realities of constructing a modern life in such limiting contexts

**Island Tourism** Douglas Lockhart, D. W. Drakakis-Smith, 1997 Looks at island tourism in a broad thematic sense and in different regional settings The opening chapters highlight key issues in the context of both island literature and that of tourism and deal with the attributes of islands that fascinate tourists The regional contributions examine the key issues in specific island settings from mass market destinations to places where there is currently relatively little tourism Annotation copyright by Book News Inc Portland OR

Andrew Grant, Fredrik Söderbaum, 2003 This edited volume transcends conventional state centric and formalistic notions of regionalism and theorizes conceptualizes and analyzes the complexities and contradictions of regionalization processes in contemporary Africa The collection not only unpacks and theorizes the African state society complex with regard to new regionalism but also explicitly integrates the often neglected discourse of human security and human development In so doing the book moves the discussion of new regionalism forward at the same time as it adds important insights to security and development It is organized into three parts Part I theorizes conceptualizes and analyzes the new regionalism in Africa from the point of view of the region e g West East Central and Southern Africa The national perspectives in Part II focus on

**St. Helena, Ascension, and Tristan Da Cunha** Alan Edwin Day, 1997 These three South Atlantic British dependent territories were all discovered by Portuguese seamen in the early sixteenth century Following in the wake of the Portuguese English and Dutch East India men found the island a convenient port of call on the long haul home After a brief struggle St Helena was under the direct rule of the East India Company from 1673 to 1834 when it became a Crown Colony It is best known as the place of exile of Napoleon Bonaparte from 1815 to his death in 1821 With the opening of the Suez Canal and the introduction of steamships St Helena's economy collapsed and the island has remained a quiet backwater ever since Ascension and Tristan da Cunha were both occupied by a British garrison when Napoleon arrived on St Helena in order to prevent any attempt at rescue Ascension remained under Admiralty control as a stone frigate until 1922 when it became a dependency of St Helena During the Second World War an American air base was constructed which was heavily used as a staging post for the British task force en route to recover the Falkland Islands in the 1982 South Atlantic War The base continues to provide an essential link in the logistical support of the British garrison on the Falklands A small number of families eked out a precarious and isolated existence on Tristan from 1826 to 1961 when its volcano thought to be long extinct suddenly erupted causing the islanders to be evacuated to England There was a general amazement when most of them elected to return to their hard life in 1962 Today they enjoy six calls a year by South African vessels from Cape Town in connection with the crawfish industry on the island and an annual visit by a ship from England
