

## *Africa*

*Identify me as black,  
Am I an African?  
Classify me as white,  
Am I an African?  
Ebony or Brunette  
Does that classify  
An African.  
Rich or poor does  
Does that distinguish Africans.*

*Peace,  
unity,  
oneness  
Is the beating drum of  
Africa.  
Dignity,  
Ubuntu,  
principle  
Culture and tradition is  
Our identity.  
To live in Africa does not  
Mean you are an African  
To be dark does not mean  
You are an African  
To be white does not mean  
You are an African  
The blood that runs as the  
Zambezi river  
Character makes us an African*

## **African Poetry:**

**African Poetry** Ulli Beier, 1971      **West African Poetry** Robert Fraser, 1986-09-04 Previous studies of African poetry have tended to concentrate either on its political content or on its relationship to various European schools This book examines West African poetry in English and French against the background of oral poetry in the vernacular Do the roots of such poetry lie in Africa or in Europe In committing their work to writing do poets lose more than they gain Can the immediacy of oral performance ever be recovered Robert Fraser s account of two centuries of West African verse examines its subjugation to a succession of international styles from the heroic couplet to the austerity of experimental Modernism Successive chapters take us through the N gritude movement and the emergence of anglophone free verse in the 1950s to the rediscovery in recent years of the neglected springs of orality which is the subject of the concluding chapter      **Letters from Africa** African Project, 2015-05-20 Letters from Africa the modern African poetry compilation is the first ever of its kind as it is a collective poetry compilation made by Africans throughout the continent with the purpose of showing that there s more to Africa than being presented to the world there s art there s poetry      Poetic Imagination in Black Africa Tanure Ojaide, 1996 In this book Tanure Ojaide explains the uniqueness of modern African poetry which he sees as a product of African orature and the Western literary tradition The volume fittingly begins with African Literature and Cultural Identity which establishes areas of cultural identity of modern African literature in general The next chapter strives to define modern African poetic aesthetics The book then examines both the oral and the rhythmic aspects of modern African poetry Having established the defining characteristics of modern African poetry Ojaide takes on the history of the art form The Changing Voice of History Contemporary African Poetry and New Trends in Modern African Poetry contrast the newer poetry to that of the older generation while acknowledging the influence of the old on the new The book then goes on to highlight African women s poetry and compare African American poetry with modern African poetry After the author himself a poet talks about his background and generation the collection concludes with Poetic Imagination in Black Africa Ojaide brings the intuitive knowledge of a practitioner and scholar to his literary criticism of poetry examining and interpreting modern African poems with lucidity passion and freshness His knowledge of American and English literatures allows him to make apt comparisons and bring out the uniqueness of modern African poetry Touching on the themes techniques and other areas Poetic Imagination in Black Africa will help readers achieve a deeper understanding of the complex and diverse world of modern African poetry      *Francophone African Poetry and Drama* Richard J. Gray II, 2014-09-23 Scholars examining literature from former French colonies sometimes view it wrongly as simply an outgrowth of colonial literature By suggesting new ways to understand the multiple voices present this book explores how Francophone African poetry and theatre in particular since the 1960s constitute both an organic cultural product and a reflection of the diverse African cultures in which they originate Themes explored in five chapters include the many kinds of African identity formation the resistance to former notions of

literary composition as art a remapping of social responsibility and the impact of globalization on Francophone Africa s participation in world economics politics and culture This study highlights the inner workings of Francophone African literature and suggests a canonization of modern Francophone works from a world perspective Understanding African Poetry Ken L.
