Department of State, 1992     *Speech and Silence in Contemporary Children's Literature* Danielle E. Price, 2023-10-31 *Speech and Silence in Contemporary Children's Literature* brings a fresh perspective to a central literary question Who speaks by examining a variety of represented silences These include children who do not speak do not yet speak effectively or speak on behalf of others A rich and unexamined literary archive explores the problematics of children who are literally silent or metaphorically so because they cannot communicate effectively with adults or peers This project centers children's literature in the question of voice by considering disability gender race and ecocriticism Children's literature rests on a paradox at the root of its own genre it is produced by an adult author writing to a constructed idea of what children should be By reading a range of contemporary children's literature this book scrutinizes how such texts narrate the child's journey from communicative alterity to a place of empowered adult speech Sometimes the child's verbal enclosure enables privacy and resistance At other times silence is coerced or imposed or arises from bodily impairment Children may act as intermediaries speaking on behalf of species that cannot Recently we have seen children exercise their voices on the world stage and as authors In all cases the texts analyzed here reveal speech as a minefield to be traversed Children who talk too much too little or with insufficient expertise pose problems to themselves and others Implicitly and sometimes explicitly they attempt to hold adults to account inside and outside the text *Speech and Silence in Contemporary Children's Literature* addresses this underconceptualized subject in what will be an important text for scholars of children's literature childhood studies English disability studies gender studies race studies ecopedagogy and education     [The Official Price Guide to Collecting Books](#) Marie Tedford, Pat Goudey, 2002 A Collector's Guide to the Wonderful World of Books Whether you've found a century old cookbook in your attic are curious about your favorite contemporary author or want to appraise a classic from your childhood *The Official R Price Guide to Collecting Books* offers all the professional advice and information you need to determine the right values and the proper care for your books COMPLETELY REVISED AND UPDATED *The Official R Price Guide to Collecting Books* contains values for thousands of titles from classic to contemporary to help you enrich your shelves with unforgettable stories and priceless collectibles LISTINGS BY AUTHOR FOR EASY REFERENCE Plus there are listings of authors cross referenced by category EVERY GENRE IS INCLUDED From medical texts and early travel journals to science fiction and poetry this incredible sourcebook covers both the old and the new from Shakespeare and Dickens to Clancy and Grisham PROFESSIONAL ADVICE This book contains valuable tips on buying selling and preserving your books as well as a complete glossary of book collecting terms     **Breaking the Silence** Ellen Grünkemeier, 2013 South Africa is one of the

countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus

Political Silence of Youth in Togo Roos Keja,2022-02-07 This book paints an image of sociality in duress describing how new Information and Communication Technologies ICT bring possible changes in political engagement and civic ness The political branch of the field of ICT for Development ICT4D is firmly convinced that this translates in civic engagement and democratisation This book questions this conception by showing that mistrust greatly increases through new ICT in a society where mistrust has been internalised These processes are examined in the society encountered in Sokod the capital of the Central Region of Togo in the period between 2015 and 2020 when the mobile phone became widespread among young people This ethnographic research provides a snapshot of the changes brought about by new ICT in the social fabrics and the lives of these young people The place and period are highly relevant for getting a better understanding of the forms that civic engagement can take and the roles that new ICT can play in settings of political repression Togo has been ruled by the same family for over half a century and Sokod is one of the rare places of fierce political opposition However young people do not persevere in massive street protests like in other countries even though they appear to have every reason to do so How can the circumstances and social processes be understood that are leading to this political silence and how do frustration and anger find their way The link between new ICT and civic engagement has more often been made but mostly quantitative and volatile lacking empirical grounding This book demonstrates that there is indeed a connection between new ICT and social change Through their phones young people inform themselves in different ways and they react differently to social and political changes Their reflection on politics has also altered minimal as it may seem By closely regarding the context and mechanisms by which the trustworthiness of information is valued this book contributes to the nascent research field of communication and political anthropology

**The Publishers' Circular and Booksellers' Record** ,1930 **The Silence of Great Zimbabwe** Joost Fontein,2016-06-03 This book examines the politics of landscape and heritage by focusing on the example of Great Zimbabwe National Monument in southern Zimbabwe The controversy that surrounded the site in the early part of the 20th century between colonial antiquarians and professional

archaeologists is well reported in the published literature Based on long term ethnographic field work around Great Zimbabwe as well as archival research in NMMZ in the National Archives of Zimbabwe and several months of research at the World Heritage Centre in Paris this new book represents an important step beyond that controversy over origins to focus on the site s position in local contests between and among individuals within the Nemanwa Charumbira and Mugabe clans over land power and authority To justify their claims chiefs spirit mediums and elders of each clan make appeals to different but related constructions of the past Emphasising the disappearance of the Voice that used to speak there these narratives also describe the destruction alienation and desecration of Great Zimbabwe that occurred and continues through the international and national archaeological and heritage processes and practices by which Great Zimbabwe has become a national and world heritage site today
