Michael Collinson, 2019-03-04 First published in 1972 Farm Management in Peasant Agriculture remains the only detailed

Part 1 describes the conditions of the agricultural sector within which the African peasant farmer must operate and then  
outlines an approach to farm management tailored to those conditions Part 2 sets out the research planning and investigation  
tasks implied by the approach Survey techniques as well as the value of a pre survey for understanding general attributes of  
a farm system are reviewed and alternative data collection methods are elaborated Part 3 shows how research data can be
