African Independence The First Twenty Five Years:

African Independence Gwendolen M. Carter, Patrick O'Meara, 1985-01-01 **The Failure Of The Centralized State** James Wunsch, Dele Olowu, John W Harbeson, Vincent Ostrom, 2019-07-11 This book is an outcome of the workshop on Political Theory and Policy Analysis held in Indiana during the 1985-86. It seeks to explain why the centralized African state has failed and discusses the breakdown of social processes indirectly caused by the policies of the centralized state.

The International Journal of African Historical Studies, 1986 *An Introduction to African Politics* Alex Thomson, 2022-12-30 This fully updated fifth edition of *An Introduction to African Politics* is an ideal textbook for those new to the study of this fascinating continent. Charting trends in government over six decades of the post-colonial era, the book tackles key questions such as: How have African states made sense of their colonial inheritance? How relevant are ethnic and religious identities? Why have some states collapsed and others prospered? Why did the one-party state fail? Why is contemporary Africa now dominated by electoral authoritarian states and not the multi-party democracies promised in the 1990s? Key features include thematically organised chapters exploring issues such as colonialism, ethnicity, nationalism, religion, social class, ideology, legitimacy, authority, sovereignty and democracy. A new five-part structure makes clearer Africa's political evolution over time. A new chapter on the emergence of hybrid states and electoral authoritarianism provides more coverage of twenty-first century governance trends such as China's impact, the changing role of the military, different uses of client-patron networks, Western conditionality and the Africa Rising debate. Colour presentation of maps, photos and data boxed case studies including Mali, Tanzania, Nigeria, Botswana, Côte d'Ivoire, Uganda, Somalia, Ghana, the Democratic Republic of the Congo, Tunisia and Angola. Each chapter concludes with key terms and definitions, questions and further reading.

An Introduction to African Politics is essential reading for students seeking an accessible introduction to the complex social relationships and events that characterise the politics of post-colonial Africa.

Poverty Reduction Strategies in Africa Mike O. Odey, Toyin Falola, 2017-09-08 A fundamental question about contemporary Africa is why does Africa remain so poor long after the departure of the European colonial domination and in the midst of so many natural resources? *Poverty Reduction Strategies in Africa* provides new understandings of the persistent issue of poverty in Sub-Saharan Africa and makes recommendations for policy frameworks to help African governments alleviate poverty. Each chapter uses case studies to review the old strategies for resolving the problem of poverty in the continent and make the case for new initiatives to address poverty. The contributors focus on practical and day-to-day issues as the best approach to formulate and implement poverty reduction strategies in contemporary Africa. This book is invaluable reading for students and scholars of African politics and development.

African Perspectives on Governance Göran Hydén, Dele Olowu, H. W. O. Okoth-Ogendo, 2000 This book brings together the views of a group of East

and West African scholars on a range of issues relating to how African countries are being governed In contrast to most other publications on governance which tend to reflect primarily the views of the international donor community this book provides a refreshing African perspective on these issues It is critical in its approach but the authors speak with authority based on both personal experience and research on the African continent The book addresses such aspects of governance as human rights the freedom of the media the role of intellectuals the place of local government in national politics women in politics the significance of constitutionalism and ethnic pluralism Each subject is covered comparatively with reference to both East and West Africa This book lends itself to courses on African politics or more general education courses on African development issues It should also be of relevance to analysts of African governance and development in governments inter governmental and non governmental organizations
