The African Origin of Civilization Cheikh Anta Diop, 2012-09-01 Now in its 30th printing this classic presents historical archaeological and anthropological evidence to support the theory that ancient Egypt was a black civilization **The African Origin of Civilization** Garrick A. Farria, 2021-11-20 This chapter by chapter review of Cheikh Anta Diop's foundational work *The African Origin of Civilization* offers some perspective here sixty two years after the bulk of it was first published Diop is largely seen as an intellectual giant across the African world family and worked as a physicist historian linguist and Egyptologist The arguments and evidence presented time and time again still make a compelling case for the Nile Valley origins of ancient Egyptian Civilization but Civilization at large *The African Origin of Civilization* Diana Craig Patch, Alisa LaGamma, 2022 This Bulletin highlights five millennia of extraordinary artistic production on the African continent Twenty one pairings unite masterpieces from the Museum's collections of ancient Egyptian and West and Central African art to reveal unexpected parallels and contrasts across time and cultures The title pays special homage to Senegalese scholar and humanist Cheikh Anta Diop whose book *The African Origin of Civilization Myth or Reality* 1974 challenged prevailing attitudes and advocated for recentering Africa as the source of humanity's common ancestors and many widespread cultural practices Building on Diop's premise this volume allows readers to delve into the rich histories and diverse artistic traditions from the cradle of human creativity *The African Origins of Democracy* Bernd Reiter, 2026-01-01 *The African Origins of Democracy* challenges the myth that democracy was born in ancient Greece Drawing on archaeology anthropology and political science Bernd Reiter shows that egalitarian African societies practiced self rule tens of thousands of years earlier and that these traditions spread outward through migration and exchange At the heart of the book is Botswana where dikgotla village assemblies still embody living democracy today Bold and provocative this book rewrites democracy's story centering Africa as its birthplace and urging us to imagine futures beyond elite driven representative systems *The African Philosophy Reader* Pieter Hendrik Coetzee, A. P. J. Roux, 1998 This collection provides a thorough introduction to African philosophy literature religion and anthropology through twenty five readings from key thinkers They discuss topics such as African culture epistemology metaphysics and religion political philosophy aesthetics and explore rationality and explanation in an African context *Cheikh Anta Diop's Transdisciplinary Legacy* Victor Oguejiofor Okafor, 2026-01-22 This book highlights the transdisciplinary legacy of Cheikh Anta Diop's epistemology demonstrating its continuing impact on contemporary Africology which is also known as Black Studies Diop's works in the second half of the 20th century were foundational to the discipline of Africology Exposing a stain of cultural and racial bias in Eurocentric Egyptology Diop argued that ancient Egyptian civilization in fact had deep cultural and linguistic connections with African societies south of the Sahara This book argues that transdisciplinarity was at the heart of Diop's arguments as his work drew from history anthropology linguistics sociology economics linguistics osteology and physics This book argues that even now

transdisciplinary approaches remain essential to the discipline of Africology sometimes referred to as Black Studies Africana Studies Pan African Studies African Global Studies or African American Studies In this book the contributors consider how Diopian transdisciplinary epistemic approaches continue to combat racial bias and restore the global historical and cultural significance of Africa Highlighting the significance of Africa's usable past as outlined by Diop this book is an important read for researchers across African Studies Africology Black Studies History World Civilizations Intercultural Studies Africa focused Think Tanks and policy makers across the African world The Oxford Encyclopedia of African Thought Abiola Irele, 2010 From St Augustine and early Ethiopian philosophers to the anti colonialist movements of Pan Africanism and Negritude this encyclopedia offers a comprehensive view of African thought covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe The term African thought has been interpreted in the broadest sense to embrace all those forms of discourse philosophy political thought religion literature important social movements that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience The Encyclopedia is a large scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements producing a collection that is an essential resource for teaching an invaluable companion to independent research and a solid guide for further study

When Race Trumps Merit Heather Mac Donald, 2026-04-28 Does your workplace have too few black people in top jobs It's racist Does the advanced math and science high school in your city have too many Asians It's racist Does your local museum employ too many white women It's racist too After the Black Lives Matter protests of 2020 prestigious American institutions from the medical profession to the fine arts pleaded guilty to systemic racism How else explain why blacks are overrepresented in prisons and underrepresented in C suites and faculty lounges their leaders asked The official answer for those disparities is disparate impact a once obscure legal theory that is now transforming our world Any traditional standard of behavior or achievement that impedes exact racial proportionality in any enterprise is now presumed racist Medical school admissions tests expectations of scientific accomplishment in the award of research grants the enforcement of the criminal law all are under assault because they have a disparate impact on underrepresented minorities When Race Trumps Merit provides an alternative explanation for those racial disparities It is large academic skills gaps that cause the lack of proportional representation in our most meritocratic organizations and large differences in criminal offending that account for the racially disproportionate prison population The administration of Donald Trump has taken aim at disparate impact doctrine following a roadmap laid out by When Race Trumps Merit The book's analysis remains as urgent as ever As long as alleged racism remains the only allowable explanation for racial differences we will continue tearing down excellence and putting lives as well as civilizational achievement at risk **Black World/Negro Digest**, 1974-07 Founded in 1943 Negro Digest later Black World was the publication that launched Johnson Publishing During the most turbulent years of the civil
